**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**1. Organization and Basis of Presentation**

Odyssey Re Holdings Corp. (together with its subsidiaries, the “Company” or “OdysseyRe”) is an underwriter of reinsurance, providing a full range of property and casualty products on a worldwide basis, and an underwriter of specialty insurance, primarily in the United States and through the Lloyd’s of London marketplace. Odyssey Re Holdings Corp. was formed as a holding company and incorporated in Delaware in 2001 in conjunction with its initial public offering. Odyssey Re Holdings Corp. owns all of the common shares of Odyssey America Reinsurance Corporation (“Odyssey America”), its principal operating subsidiary, which is domiciled in the state of Connecticut. Odyssey America directly or indirectly owns all of the common shares of the following domestic and foreign subsidiaries: Clearwater Insurance Company (“Clearwater”); Clearwater Select Insurance Company; Odyssey UK Holdings Corporation; Newline Underwriting Management Ltd., which owns and manages Newline Syndicate 1218, a member of Lloyd’s of London (collectively, “Newline”); Newline Insurance Company Limited (“NICL”); Hudson Insurance Company; Hudson Specialty Insurance Company and Napa River Insurance Services, Inc. As of March 31, 2008, Fairfax Financial Holdings Limited (“Fairfax”), a publicly traded financial services holding company based in Canada, owned 63.0% of OdysseyRe.

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany transactions have been eliminated. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions, which could differ materially from actual results, that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. Certain financial information and disclosures that are usually included in annual financial statements prepared in accordance with GAAP have been omitted since they are not required for interim reporting purposes. Readers should review the Company’s 2007 Annual Report on Form 10–K for a more complete description of the Company’s business and accounting policies. The Company’s unaudited interim consolidated financial statements include all normal recurring adjustments that, in management’s opinion, are required for a fair statement of its financial position on such dates, and the results of operations and cash flows for the periods presented. Certain amounts from prior periods have been reclassified to conform with the current year’s presentations. The results for the three months ended March 31, 2008 are not necessarily indicative of the results for a full year.

Statement of Financial Accounting Standards (“SFAS”) 157, “Fair Value Measurements,” defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. In February 2008, the Financial Accounting Standards Board (“FASB”) issued FASB Staff Position FAS 157–2 (“FSP FAS 157–2”), “Effective Date of FASB Statement No. 157,” which permits a one–year deferral of the application of SFAS 157 for all non–financial assets and non–financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually).

The Company adopted SFAS 157 and FSP FAS 157–2 effective January 1, 2008. Accordingly, the provisions of SFAS 157 were not applied to non–financial assets (goodwill and intangible assets) held by the Company and measured annually for impairment testing purposes only. The adoption of SFAS 157, for all other assets and liabilities held by the Company, did not have a material effect on the Company’s results of operations, financial position or liquidity. The Company will adopt SFAS 157 for non–financial assets and non–financial liabilities on January 1, 2009 and does not expect the provisions to have a material effect on its results of operations, financial position or liquidity.

On January 1, 2008, the Company adopted SFAS 159, “The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115,” which provides a fair value option (“FVO”) to measure many financial instruments and certain other assets and liabilities at fair value on an instrument–by–instrument basis. The Company elected the FVO for one investment that had previously been recorded under the equity method of accounting. On January 1, 2008, the Company discontinued applying the

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

equity method of accounting for this investment and, in accordance with SFAS 159, carries the investment at fair value with changes in fair value recognized as realized gains or losses in the consolidated statements of operations. As a result of adopting the FVO for this investment, the Company recorded a cumulative adjustment of \$1.5 million to reclassify foreign currency unrealized gains, net of tax, which had been included in accumulated other comprehensive income, to retained earnings as of January 1, 2008. In addition, SFAS 159 amended SFAS 95, "Statement of Cash Flows," to allow cash payments and receipts related to trading securities to be classified according to the investment intent. As a result of the amendment to SFAS 95, as of January 1, 2008, the Company has classified its trading activity within the investing activities section of its consolidated statements of cash flows due to the investment nature of the transactions.

In September 2006, the FASB issued SFAS 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans — an amendment of SFAS 87, 88, 106, and 132(R)." In accordance with SFAS 158, as of December 31, 2006, the Company recognized the underfunded status of its pension and postretirement benefit plans, as a liability on its consolidated balance sheet, and recognizes the changes in the funded status in the year in which the changes occur, through other comprehensive income. SFAS 158 also requires employers to measure plan assets and liabilities as of the date of their financial statements. Accordingly, the measurement date for two of the Company's benefit plans have been changed from October 1 to December 31. The Company has elected to apply the "fifteen-month" approach for these two benefit plans, to measure plan assets and liabilities as of the plans' current measurement date, October 1, 2007, for a fifteen-month period through December 31, 2008. On January 1, 2008, the Company recorded a transition adjustment of \$1.2 million, net of tax, decreasing retained earnings, and \$0.1 million, net of tax, increasing accumulated other comprehensive income, related to the change in the measurement date for the two benefit plans. SFAS 158 does not require retrospective application.

**2. Earnings Per Common Share**

Basic earnings per common share are calculated by dividing net income available to common shareholders for the period by the weighted-average number of common shares outstanding during the period, excluding those non-vested shares granted under the Odyssey Re Holdings Corp. Restricted Share Plan (the "Restricted Share Plan"). Diluted earnings per common share is calculated by dividing net income available to common shareholders for the period, adjusted for interest expense on the Company's previously outstanding 4.375% convertible senior debentures (the "Convertible Notes"), by the weighted-average number of common shares outstanding during the period, inclusive of: vested and non-vested shares granted under the Restricted Share Plan, as determined using the treasury stock method; stock options that would be assumed to be exercised on the balance sheet date, as determined using the treasury stock method; and the effect of the conversion of the Convertible Notes to equity securities in the prior period. Restricted shares, stock options or the effect of the conversion of the Convertible Notes and the related interest expense are not included in the calculation of diluted earnings per common share, if the effect would be antidilutive.

**ODYSSEY RE HOLDINGS CORP.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

Net income per common share for the three months ended March 31, 2008 and 2007 has been computed in the following table based upon weighted average common shares outstanding (in thousands, except share and per share amounts):

	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
Net income	\$ 250,945	\$ 88,648
Preferred dividends	(1,913)	(2,092)
Net income available to common shareholders — basic	249,032	86,556
Interest expense on 4.375% Convertible Notes, net of tax	—	151
Net income available to common shareholders — diluted	\$ 249,032	\$ 86,707
Weighted average common shares outstanding — basic	68,039,341	70,462,139
Effect of dilutive shares:		
4.375% Convertible Notes	—	1,074,384
Stock options	141,460	184,824
Restricted shares	355,785	408,165
Total effect of dilutive shares	497,245	1,667,373
Weighted average common shares outstanding — diluted	68,536,586	72,129,512
Net earnings per common share:		
Basic	\$ 3.66	\$ 1.23
Diluted	3.63	1.20

In calculating diluted earnings per share, the Company is required to evaluate each stock option and restricted stock grant to determine if it is dilutive or antidilutive in nature. For the three months ended March 31, 2008 and 2007, respectively, 299,249 and 94,993 existing stock options and restricted stock awards outstanding were excluded from the computation of weighted average common shares for diluted earnings per common share, due to the antidilutive effect.

The Company's Convertible Notes were converted into common shares during the year ended December 31, 2007, as such there was no dilutive effect related to the Convertible Notes for the three months ended March 31, 2008.

**3. Fair Value Measurements**

In February 2008, the FASB issued FSP FAS 157-2, "Effective Date of FASB Statement No. 157," which permits a one-year deferral of the application of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually).

The Company adopted SFAS 157 and FSP FAS 157-2 effective January 1, 2008. Accordingly, the provisions of SFAS 157 were not applied to non-financial assets (goodwill and intangible assets) held by the Company and measured annually for impairment testing purposes only. The adoption of FAS 157, for all other assets and liabilities held by the Company, did not have a material effect on the Company's results of operations, financial position or liquidity. The Company will adopt SFAS 157 for non-financial assets and non-financial liabilities on January 1, 2009 and does not expect the provisions to have a material effect on its results of operations, financial position or liquidity.

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

SFAS 157 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. The Company accounts for a significant portion of its financial instruments at fair value under various accounting literature, including SFAS 155, “Accounting for Certain Hybrid Financial Instruments — an amendment of FASB Statements No. 133 and 140,” SFAS 133, “Accounting for Derivative Instruments and Hedging Activities,” and SFAS 159.

***Fair Value Hierarchy***

In accordance with SFAS 157, the Company has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded in the consolidated balance sheets are categorized based on the inputs to the valuation techniques as follows:

**Level 1:** Level 1 financial instruments are financial assets and liabilities, the values of which are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Company has the ability to access.

**Level 2:** Level 2 financial instruments are financial assets and liabilities, the values of which are based on quoted prices in markets that are not active, or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in non-active markets;
- c) Pricing models, the inputs for which are observable for substantially the full term of the asset or liability; and
- d) Pricing models, the inputs for which are derived principally from, or corroborated by, observable market data through correlation or other means, for substantially the full term of the asset or liability.

**Level 3:** Level 3 financial instruments are financial assets and liabilities, the values of which are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management’s own assumptions about the methodology and valuation techniques that a market participant would use in pricing the asset or liability.

When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement in its entirety. For example, a Level 3 fair value measurement may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3). Therefore, gains and losses for such assets and liabilities categorized within the Level 3 table below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable inputs (Level 3).

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification for certain financial assets or liabilities. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in or out of the Level 3 category as of the beginning of the quarter in which the reclassifications occur.

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

The following table presents the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of March 31, 2008 (in thousands):

	Asset/ (Liabilities) Measured at Fair Value March 31, 2008	Fair Value Measurements as of March 31, 2008		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Held-for-trading securities	\$ 258,196	\$ —	\$ 258,196	\$ —
Available-for-sale securities	6,240,202	2,000,228	4,238,974	1,000
Cash equivalents	574,932	574,932	—	—
Derivatives	309,863	—	309,863	—
Other investments	16,855	1,552	15,303	—
Short positions	(39,200)	(39,200)	—	—
	\$ 7,360,848	\$ 2,537,512	\$ 4,822,336	\$ 1,000

The following table provides a summary of changes in the fair value of Level 3 financial assets for the three months ended March 31, 2008 (in thousands):

	Level 3 Financial Assets for the Three Months Ended March 31, 2008 Available-for-sale Securities
Beginning balance	\$ 9,147
Total realized gains included in net income	7,827
Purchases, issuances and settlements	(15,974)
Ending balance	\$ 1,000

The following table presents gains and losses included in net income for the three months ended March 31, 2008 (in thousands):

	Net Realized Investment Gains for the Three Months Ended March 31, 2008
Total gains and losses included in net income relating to Level 3 assets	\$ 7,827

There were no gains or losses included in net income attributable to the change in unrealized gains and losses relating to assets held as of March 31, 2008.

***Fair Value Option***

The Company adopted the provisions of SFAS 159 as of January 1, 2008. SFAS 159 provides an FVO election that allows companies to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and liabilities. Changes in the fair value of assets and liabilities for which the election is made will be recognized in net income as they occur. SFAS 159 permits the FVO election on an instrument-by-instrument basis at initial recognition of an asset or liability or upon the occurrence of an event that gives rise to a new basis of accounting for that instrument.

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

The Company elected the FVO under SFAS 159 for its investment in Advent Capital (Holdings) PLC (“Advent”). As of December 31, 2007, Advent was carried at \$16.1 million under the equity method of accounting. Advent is publicly traded on a foreign stock exchange and its traded price is a better indicator of its value than its carrying value under the equity method. The remaining common stocks that are accounted for in accordance with the equity method of accounting are not publicly traded and have not been elected under the FVO.

During the fourth quarter of 2007, the Company recognized an impairment adjustment to its investment in Advent and wrote-down Advent’s value to its publicly traded fair value as of December 31, 2007. Accordingly, the Company’s election of the FVO under SFAS 159 had no effect on Advent’s carrying value or the Company’s shareholders’ equity as of January 1, 2008. Upon the election of SFAS 159 for Advent, the Company recorded a cumulative adjustment of \$2.4 million, or \$1.5 million net of tax, to reclassify foreign currency unrealized gains from the foreign currency translation account (included in accumulated other comprehensive income) to retained earnings as of January 1, 2008.

As of March 31, 2008, Advent is recorded at fair value of \$16.7 million in other invested assets, with related changes in fair value recognized as a realized investment gain or loss in the period in which they occur. For the three months ended March 31, 2008, the change in fair value resulted in a realized investment gain of \$0.6 million.

**4. Investments and Cash**

A summary of the Company’s investment portfolio as of March 31, 2008, excluding common stocks, at equity, other invested assets and fixed income securities held as trading securities, is as follows (in thousands):

	<u>Cost or Amortized Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Fair Value</u>
Fixed income securities, available for sale:				
United States government, government agencies and authorities	\$ 2,558,589	\$ 48,760	\$ 8,071	\$ 2,599,278
States, municipalities and political subdivisions	173,447	6,159	700	178,906
Foreign governments	1,188,226	24,612	1,293	1,211,545

Cumulative effect of a change in accounting due to the adoption of SFAS 155, net of tax, excluding foreign currency effects	—	12,845
Change in net unrealized depreciation of investments included in other comprehensive income	\$ (29,677)	\$ (13,610)

*(c) Common Stocks, at Equity*

Common stocks, at equity, totaled \$138.1 million as of March 31, 2008 and \$157.5 million as of December 31, 2007. The following table sets forth the components of common stocks, at equity, as of March 31, 2008 and December 31, 2007 (in thousands):

	March 31, 2008	December 31, 2007
TRG Holding Corporation	\$ 76,613	\$ 77,714
Fairfax Asia Limited	60,946	60,946
Advent Capital (Holdings) PLC	—	16,093
MFXchange Holdings Inc.	—	2,191
Other	506	506
Total common stocks, at equity	\$ 138,065	\$ 157,450

On March 28, 2008, the Company sold its 7.4% investment in MFXchange Holdings Inc. to Fairfax, resulting in a realized investment loss of \$2.0 million. As of March 31, 2008, Advent Capital (Holdings) PLC has been reclassified to other invested assets as a result of the Company's election of the FVO under SFAS 159.

ODYSSEY RE HOLDINGS CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)

(d) *Derivative Investments and Short Sales*

The Company has utilized, and may continue to utilize, credit default swaps, call options and warrants, total return swaps, interest rate options, forward currency contracts and short sales to manage against adverse changes in the values of assets and liabilities. These products are not linked to specific assets or liabilities on the balance sheet or to forecasted transactions and, therefore, do not qualify for hedge accounting. The following table sets forth the Company's derivative and short sale positions as of March 31, 2008 and December 31, 2007, respectively (in thousands):

	March 31, 2008			December 31, 2007		
	Notional Amount	Cost	Fair Value Asset (Liability)	Notional Amount	Cost	Fair Value Asset (Liability)
Credit default swaps	\$ 4,130,568	\$ 70,722	\$ 239,150	\$ 4,978,553	\$ 94,184	\$ 307,573
Call options	964,898	908	—	961,186	1,125	63
Total return swaps	691,013	—	65,007	691,013	—	3,848
Warrants	190,115	6,235	3,895	189,652	6,252	4,407
Forward currency contracts	247,379	—	1,811	149,211	—	(2,763)
Short positions — obligation to return borrowed securities	—	(51,222)	(39,200)	—	(62,310)	(60,675)

The Company has purchased credit default swaps, referenced to various issuers in the banking, mortgage and insurance sectors of the financial services industry, that provide a hedge against adverse movements in the fair value of investments and other corporate assets resulting from systemic financial and credit risk. Under a credit default swap, the Company agrees to pay, at specified periods, fixed premium amounts based on an agreed notional principal amount in exchange for the credit default protection on a specified asset. Credit default swaps are recorded at fair value in other invested assets, with the related changes in fair value recognized as a realized gain or loss in the period in which they occur. The Company assesses the reasonableness of the fair values of the credit default swaps by comparison to models validated by qualified personnel, by reference to movements in credit spreads and by comparing the fair values to recent transaction prices for similar credit default swaps where available. The fair values of credit default swaps are subject to significant volatility given potential differences in the perceived risk of default of the underlying issuers, movements in credit spreads and the length of time to the contracts' maturities. The fair value of the credit default swaps may vary dramatically either up or down in short periods, and their ultimate value may therefore only be known upon their disposition. As a result of the appreciation in the fair value of the credit default swaps, counterparties to these transactions are required to place government securities as collateral, pursuant to the swap agreements. The fair value of this collateral at March 31, 2008 was \$178.4 million, of which the Company does not have the right to sell or repledge \$100.1 million. The Company has not exercised the right to sell or repledge the remaining \$78.3 million of this collateral. The credit default swap portfolio had an average term to expiration of 3.3 years as of March 31, 2008.

The Company has purchased total return swaps as an economic hedge against a general decline in the Company's equity portfolio. The margin maintenance requirement related to the total return swaps was \$203.5 million and \$205.7 million as of March 31, 2008 and December 31, 2007, respectively. The swap transactions expire during the second quarter of 2008. As of March 31, 2008 and December 31, 2007, the Company has provided \$220.0 million and \$210.9 million, respectively, of U.S. Treasury bills as collateral for the swap transactions. The swap transactions are recorded at fair value in other invested assets as of March 31, 2008 and December 31, 2007, and changes in the fair value are recorded as realized gains or losses in the consolidated statements of operations in the period in which they occur.

In connection with the swap transactions, the Company owns Standard & Poor's 500 depository receipts ("SPDRs") and the Financial Select SPDR Fund ("XLF") index call options with strike prices of approximately 127.5% and 127.8% of the notional amount of the swap transactions as of March 31, 2008 and December 31, 2007, respectively. A call option gives the purchaser the right, but not the obligation, to purchase an underlying security at

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

a specific price or prices at or for a certain time. The Company's maximum potential loss on the swap and option transactions was \$190.9 million and \$193.2 million as of March 31, 2008 and December 31, 2007, respectively. The call options are recorded at fair value in other invested assets, and changes in the fair value are recorded as a realized gain or loss in the consolidated statements of operations.

In addition, during the three months ended March 31, 2008, the Company entered into and subsequently closed a total return swap referenced to an equity security. Upon sale, the Company recognized a realized investment gain of \$5.3 million.

The Company has investments in warrants, which are contracts that grant the holder the right to purchase an underlying financial instrument at a given price and time or at a series of prices and times. Warrants, which are included in other invested assets, are recorded at fair value with the related changes in fair value recognized as a realized gain or loss in the period in which they occur.

The Company has entered into forward currency contracts to manage its foreign currency exchange rate risk on a macro basis. Under a forward currency contract, the Company and the counterparty are obligated to purchase or sell an underlying currency at a specified price and time. As of March 31, 2008 and December 31, 2007, forward currency contracts are recorded at fair value in other invested assets and other liabilities, respectively, with the related changes in fair value recognized as a realized gain or loss in the period in which they occur.

In addition, as of March 31, 2008 and December 31, 2007, the Company had sold short primarily equity securities, for which it recorded a liability equal to the underlying fair value of the securities. As of March 31, 2008 and December 31, 2007, the Company provided cash of \$59.6 million and \$195.8 million, respectively, as collateral for the borrowed securities. The short positions are recorded at fair value in obligation to return borrowed securities, and changes in the fair value are recorded as a realized gain or loss in the consolidated statements of operations.

In connection with the short sales described above, the Company purchased a SPDR call option as protection against a decline in the value of the short positions. The call option is recorded at fair value in other invested assets in the consolidated balance sheets and changes in the fair value are recorded as a realized gain or loss in the consolidated statements of operations in the period in which they occur.

The Company holds options on certain securities within its fixed income portfolio, which allows the Company to extend the maturity date of fixed income securities or convert fixed income securities to equity securities. As a result of the adoption of SFAS 155 on January 1, 2007, the Company no longer bifurcates these options from the host fixed income securities, and, beginning on January 1, 2007, changes in the fair value of the hybrid financial instruments have been recorded as realized investment gains and losses in the Company's consolidated statements of operations. Prior to the adoption of SFAS 155, changes in the fair value of the host instrument were recorded as unrealized investment gains and losses, a component of shareholders' equity, while changes in the fair value of the embedded options were recorded as realized investment gains and losses. Upon adopting SFAS 155, the Company recorded a cumulative adjustment of \$16.5 million to reclassify unrealized investment gains, net of tax, including foreign currency effects, to retained earnings as of January 1, 2007. The following sets forth the components of the cumulative adjustment as of January 1, 2007 (in thousands):

	<u>As of January 1, 2007</u>			
	<u>Cost or Amortized Cost</u>	<u>Fair Value</u>	<u>Gain, pre-tax</u>	<u>Loss, pre-tax</u>
Corporate securities	\$ 150,658	\$ 168,403	\$ 18,941	\$ (1,196)
Foreign government securities	76,877	84,511	8,426	(792)
Net cumulative effect of a change in accounting due to the adoption of SFAS 155	\$ 227,535	\$ 252,914	\$ 27,367	\$ (1,988)

## ODYSSEY RE HOLDINGS CORP.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)

Counterparties to the derivative instruments expose the Company to credit risk in the event of non-performance. The Company believes this risk is low, given the diversification among various highly rated counterparties. The credit risk exposure is represented by the fair value of the derivative instruments.

The net realized gains or losses on disposal in the table below represent the total gains or losses from the purchase dates of the investments. The following table sets forth the total net realized investment gains and losses on derivatives and short sales for the three months ended March 31, 2008 and 2007 (in thousands):

<b>Short positions:</b>		
Net realized investment gain (loss) on disposal	7,166	(936)
Change in fair value	10,387	8,517
Total net realized investment gain	\$ 17,553	\$ 7,581

*(e) Assets on Deposit*

The Company is required to maintain assets on deposit with various regulatory authorities to support its insurance and reinsurance operations. These requirements are generally promulgated in the statutes and regulations of the individual jurisdictions. The assets on deposit are required principally to support and maintain the Company's insurance licenses. The Company utilizes trust funds in certain transactions in which the trust funds are set up for the benefit of ceding companies and generally take the place of letter of credit requirements. As of March 31, 2008, restricted assets totaled \$1.4 billion, with \$1.2 billion included in fixed income securities and the remaining balance of \$0.2 billion included in short-term investments, cash and cash equivalents.

**6. Unpaid Losses and Loss Adjustment Expenses**

The following table sets forth the activity in the liability for unpaid losses and loss adjustment expenses for the three months ended March 31, 2008 and 2007 (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
Gross unpaid losses and loss adjustment expenses, beginning of period	\$ 5,119,085	\$ 5,142,159
Less: Ceded unpaid losses and loss adjustment expenses, beginning of period	643,509	739,019
Net unpaid losses and loss adjustment expenses, beginning of period	4,475,576	4,403,140
Add: Losses and loss adjustment expenses incurred related to:		
Current year	354,553	365,111
Prior years	(2,303)	2,403
Total losses and loss adjustment expenses incurred	352,250	367,514
Less: Paid losses and loss adjustment expenses related to:		
Current year	30,076	34,180
Prior years	291,617	277,643
Total paid losses and loss adjustment expenses	321,693	311,823
Effects of exchange rate changes	6,324	(6,772)
Net unpaid losses and loss adjustment expenses, end of period	4,512,457	4,452,059
Add: Ceded unpaid losses and loss adjustment expenses, end of period	628,096	703,751
Gross unpaid losses and loss adjustment expenses, end of period	\$ 5,140,553	\$ 5,155,810

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

Estimates of reserves for unpaid losses and loss adjustment expenses are contingent on many events that may or may not occur in the future. These events include losses arising from a variety of catastrophic events, such as hurricanes, windstorms, floods and earthquakes. The eventual outcome of these events may be different from the assumptions underlying the Company's reserve estimates. In the event that the business environment and loss trends diverge from expected trends, the Company may have to adjust its reserves accordingly, potentially resulting in adverse or favorable effects to the Company's financial results. The Company believes that the recorded estimate represents the best estimate of unpaid losses and loss adjustment expenses based on the information available as of March 31, 2008. The estimate is reviewed on a quarterly basis and the ultimate liability may be more or less than the amounts provided, for which any adjustments will be reflected in the periods in which they become known.

Losses and loss adjustment expenses incurred related to the current year were \$354.6 million for the three months ended March 31, 2008, a decrease of \$10.5 million from \$365.1 million for the three months ended March 31, 2007. This decrease is principally attributable to a decrease in net earned premium of \$27.5 million, to \$511.4 million for the three months ended March 31, 2008, from \$538.9 million for the three months ended March 31, 2007. Losses and loss adjustment expenses related to current year catastrophe events were \$37.8 million for the three months ended March 31, 2008, compared to \$44.8 million for the three months ended March 31, 2007, a decrease of \$7.0 million. For the three months ended March 31, 2008, current year catastrophe events of \$37.8 million included \$12.5 million related to Windstorm Emma, \$10.0 million related to winter storms in China, and \$11.8 million related to floods in Australia.

Losses and loss adjustment expenses incurred related to prior years decreased \$2.3 million for the three months ended March 31, 2008 and increased \$2.4 million for the three months ended March 31, 2007. Prior period losses and loss adjustment expenses for the three months ended March 31, 2008 included an increase of \$0.7 million related to prior period catastrophe activity. The remaining decrease in prior period losses of \$3.0 million was predominantly attributable to reduced loss estimates due to loss emergence lower than expectations in the period on non-catastrophe business written in the London Market and U.S. Insurance divisions. This reduction was partially offset by increased loss estimates due to loss emergence greater than expectations in the period on business written in the Americas and EuroAsia divisions. Prior period losses and loss adjustment expenses for the three months ended March 31, 2007 included a reduction of \$2.1 million related to prior period catastrophe activity. The remaining increase in prior period losses of \$4.5 million was predominantly attributable to increased loss estimates due to loss emergence greater than expectations in the period on auto, general liability and aviation business written in the Americas division. This increase was partially offset by reduced loss estimates due to loss emergence lower than expectations in the period on business written in the London Market and EuroAsia divisions.

Ceded unpaid losses and loss adjustment expenses as of March 31, 2008 decreased by \$75.7 million, to \$628.1 million, from \$703.8 million as of March 31, 2007. This decrease is principally attributable to a \$40.7 million decrease in unpaid reinsurance recoverables related to the Company's whole account aggregate excess of loss retrocessional contracts and an \$18.2 million decrease in unpaid reinsurance recoverables related to miscellaneous casualty excess of loss contracts.

The Company uses tabular reserving for workers' compensation indemnity reserves, which are considered fixed and determinable, and discounts such reserves using an interest rate of 3.5%. Losses have been discounted using the Life Table for Total Population: United States, 2004. Reserves reported at the discounted value were \$122.9 million and \$128.7 million as of March 31, 2008 and December 31, 2007, respectively. The amount of case reserve discount was \$59.1 million and \$62.4 million as of March 31, 2008 and December 31, 2007, respectively. The amount of incurred but not reported reserve discount was \$25.3 million and \$27.0 million as of March 31, 2008 and December 31, 2007, respectively.

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

**7. Asbestos and Environmental Losses and Loss Adjustment Expenses**

The Company has exposure to losses from asbestos, environmental pollution and other latent injury damage claims. Net unpaid asbestos and environmental losses and loss adjustment expenses as of March 31, 2008 were \$246.0 million, representing 5.5% of total net unpaid losses and loss adjustment expenses, compared to \$256.9 million, or 5.7% of total net unpaid losses and loss adjustment expenses as of December 31, 2007. Exposure arises from reinsurance contracts written by Clearwater under which the Company has assumed liabilities, on an indemnity or assumption basis, from ceding companies, primarily in connection with general liability insurance policies issued by such ceding companies. The Company's estimate of its ultimate liability for these exposures includes "case basis" reserves and a provision for liabilities incurred but not reported. Case basis reserves are a combination of reserves reported to the Company by ceding companies and additional case reserves determined by the Company. The provision for liabilities incurred but not reported is established based on an annual review of the Company's experience and external trends in reported loss and claim payments, with monitoring of emerging experience on a quarterly basis.

Estimation of ultimate asbestos and environmental liabilities is unusually complex due to several factors resulting from the long period between exposure and manifestation of these claims. This lag can complicate the identification of the sources of asbestos and environmental exposure, the verification of coverage, and the allocation of liability among insurers and reinsurers over multiple years. This lag also exposes the claim settlement process to changes in underlying laws and judicial interpretations. There continues to be substantial uncertainty regarding the ultimate number of insureds with injuries resulting from these exposures.

In addition, other issues have emerged regarding asbestos exposure that have further impacted the ability to estimate ultimate liabilities for this exposure. These issues include an increasingly aggressive plaintiffs' bar, an increased involvement of defendants with peripheral exposure, the use of bankruptcy filings due to asbestos liabilities as an attempt to resolve these liabilities to the disadvantage of insurers, the concentration of litigation in venues favorable to plaintiffs, and the potential of asbestos litigation reform at the state or federal level.

**ODYSSEY RE HOLDINGS CORP.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

The Company's reserves for asbestos and environmental related liabilities displayed below are from business written prior to 1986. The Company's asbestos and environmental reserve development, gross and net of reinsurance, for the three months ended March 31, 2008 and 2007, is set forth in the table below (in thousands):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2008</b>	<b>2007</b>
<b>Asbestos</b>		
Gross unpaid losses and loss adjustment expenses, beginning of period	\$ 339,271	\$ 308,747
Add: Gross losses and loss adjustment expenses incurred	10,700	—
Less: Gross calendar year paid losses and loss adjustment expenses	23,728	9,450
Gross unpaid losses and loss adjustment expenses, end of period	\$ 326,243	\$ 299,297
Net unpaid losses and loss adjustment expenses, beginning of period	\$ 222,426	\$ 189,015
Add: Net losses and loss adjustment expenses incurred	4,000	—
Less: Net calendar year paid losses and loss adjustment expenses	14,345	3,658
Net unpaid losses and loss adjustment expenses, end of period	\$ 212,081	\$ 185,357
<b>Environmental</b>		
Gross unpaid losses and loss adjustment expenses, beginning of period	\$ 41,984	\$ 35,935
Add: Gross losses and loss adjustment expenses incurred	—	—
Less: Gross calendar year paid losses and loss adjustment expenses	576	210
Gross unpaid losses and loss adjustment expenses, end of period	\$ 41,408	\$ 35,725
Net unpaid losses and loss adjustment expenses, beginning of period	\$ 34,485	\$ 26,745
Add: Net losses and loss adjustment expenses incurred	—	—
Less: Net calendar year paid losses and loss adjustment expenses	576	(170)
Net unpaid losses and loss adjustment expenses, end of period	\$ 33,909	\$ 26,915

Net losses and loss adjustment expenses incurred for asbestos claims increased \$4.0 million for the three months ended March 31, 2008, due to loss emergence greater than expectations in the period. The Company did not incur net losses and loss adjustment expenses related to environmental claims for the three months ended March 31, 2008. The Company did not incur net losses and loss adjustment expenses related to asbestos and environmental claims for the three months ended March 31, 2007.

The Company's survival ratio for asbestos and environmental-related liabilities as of March 31, 2008 is 9 years. The Company's underlying survival ratio for asbestos-related liabilities is 9 years and for environmental-related liabilities is 13 years. The asbestos and environmental-related liability survival ratio represents the asbestos and environmental reserves, net of reinsurance, on March 31, 2008, divided by the average paid asbestos and environmental claims for the last three years of \$27.2 million which are net of reinsurance.

## ODYSSEY RE HOLDINGS CORP.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)

## 8. Debt Obligations and Common Shares

*Debt Obligations*

The components of the Company's debt obligations as of March 31, 2008 and December 31, 2007 were as follows (in thousands):

	<u>March 31,</u> <u>2008</u>	<u>December 31,</u> <u>2007</u>
7.65% Senior Notes due 2013	\$ 224,757	\$ 224,746
6.875% Senior Notes due 2015	124,428	124,408
Series A Floating Rate Senior Debentures due 2021	50,000	50,000
Series B Floating Rate Senior Debentures due 2016	50,000	50,000
Series C Floating Rate Senior Debentures due 2021	40,000	40,000
Total debt obligations	\$ 489,185	\$ 489,154

On November 28, 2006, the Company completed the private sale of \$40.0 million aggregate principal amount of floating rate senior debentures, series C (the "Series C Notes"), due on December 15, 2021. Interest on the Series C Notes accrues at a rate per annum equal to the three-month London Interbank Offer Rate ("LIBOR"), reset quarterly, plus 2.50%, and is payable quarterly in arrears on March 15, June 15, September 15 and December 15 of each year. The Company has the option to redeem the Series C Notes at par, plus accrued and unpaid interest, in whole or in part on any interest payment date on or after December 15, 2011. For the three months ended March 31, 2008 and 2007, the average annual interest rate on the Series C Notes was 7.10% and 7.87%, respectively.

On February 22, 2006, the Company issued \$100.0 million aggregate principal amount of floating rate senior debentures, pursuant to a private placement. The net proceeds from the offering, after fees and expenses, were \$99.3 million. The debentures were sold in two tranches, \$50.0 million of series A, due March 15, 2021 (the "Series A Notes"), and \$50.0 million of series B, due March 15, 2016 (the "Series B Notes"). Interest on each series of debentures is due quarterly in arrears on March 15, June 15, September 15 and December 15 of each year. The interest rate on each series of debentures is equal to the three-month LIBOR, reset quarterly, plus 2.20%. The Series A Notes are callable by the Company in 2011 at their par value, plus accrued and unpaid interest, and the Series B Notes are callable by the Company in 2009 at their par value, plus accrued and unpaid interest. For the three months ended March 31, 2008 and 2007, the average annual interest rate on each series of notes was 6.80% and 7.56%, respectively.

During the second quarter of 2005, the Company issued \$125.0 million aggregate principal amount of senior notes due May 1, 2015. The issue was sold at a discount of \$0.8 million, which is being amortized over the life of the notes. Interest accrues on the senior notes at a fixed rate of 6.875% per annum, which is due semi-annually on May 1 and November 1.

During the fourth quarter of 2003, the Company issued \$225.0 million aggregate principal amount of senior notes due November 1, 2013. The issue was sold at a discount of \$0.4 million, which is being amortized over the life of the notes. Interest accrues on the senior notes at a fixed rate of 7.65% per annum, which is due semi-annually on May 1 and November 1.

In June 2002, the Company issued \$110.0 million aggregate principal amount of convertible senior debentures, due 2022 (the "Convertible Notes"). Interest accrued on the Convertible Notes at a fixed rate of 4.375% per annum, due semi-annually on June 15 and December 15. The Convertible Notes became redeemable at the Company's option on June 22, 2005. Under certain conditions specified in the indenture under which the Convertible Notes were issued (the "Indenture"), each Convertible Notes holder had the right to request conversion of its Convertible Notes into 46.9925 of the Company's common shares for every \$1,000 principal amount of the Convertible Notes held by such holder, which represented a conversion price of \$21.28 per share. These conditions included the

**ODYSSEY RE HOLDINGS CORP.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

common stock of the Company trading at or above \$25.54 per share for a specified period of time. Pursuant to the terms of the Indenture, the Company was permitted to satisfy the conversion obligations in stock or in cash, or in a combination thereof. The conversion conditions were first satisfied on August 9, 2006, and in accordance with the Indenture, the Convertible Notes became convertible, at the option of the holders, on August 14, 2006. As of March 31, 2007, 1.9 million shares of the Company's common stock were issued to the Convertible Notes holders who elected to convert their Convertible Notes, of which 46,992 shares were converted during the three months ended March 31, 2007. In March 2007, the Company announced that it had called for the redemption of the remaining \$22.5 million principal value of the outstanding Convertible Notes. At the close of business on April 30, 2007, all holders of the Convertible Notes had exercised their rights of conversion with respect to the Convertible Notes. Accordingly, on May 1, 2007, the Company issued 1,056,107 shares of its common stock related to the final conversion of \$22.5 million principal value of the Convertible Notes, and no Convertible Notes remained outstanding as of such date.

As of March 31, 2008, the aggregate maturities of the Company's debt obligations, at face value, were as follows (in thousands):

<b>Year</b>	<b><u>Amount</u></b>
2013	\$ 225,000
2015	125,000
2016	50,000
2021	90,000
Total	\$ 490,000

On July 13, 2007, the Company entered into a \$200.0 million credit facility (the "Credit Agreement") with Wachovia Bank National Association ("Wachovia"), Keybank National Association and a syndicate of lenders. The Credit Agreement provides for a five-year credit facility of \$200.0 million, \$100.0 million of which is available for direct, unsecured borrowings by the Company, and all of which is available for the issuance of secured letters of credit. The Credit Agreement contains an option that permits the Company to request an increase in the aggregate amount of the facility by an amount up to \$100.0 million, to a maximum facility size of \$300.0 million. Following such a request, each lender has the right, but not the obligation, to commit to all or a portion of the proposed increase. The Credit Agreement is for working capital and other corporate purposes, including the issuance of letters of credit to support the insurance and reinsurance business of the Company. The Credit Agreement replaced the Company's three-year, \$150.0 million credit facility entered into as of September 23, 2005, which has been terminated, and the obligations thereunder have been satisfied.

As of March 31, 2008, there was \$56.5 million outstanding under the Credit Agreement, all of which was in support of letters of credit. Loans under the Credit Agreement bear interest at a fluctuating rate per annum equal to the higher of (a) the federal funds rate plus 0.5%, and (b) Wachovia's publicly announced prime rate. Alternatively, at the Company's option, loans bear interest at the LIBOR, which is the offered rate that appears on the page of the Telerate screen that displays an average British Bankers Association Interest Settlement Rate for deposits in dollars, plus 0.55%, which additional percentage may be adjusted if the Company's debt rating changes.

***Common Shares***

On June 15, 2007, the Company's Board of Directors authorized a share repurchase program. Under the initial authorization, effective as of such date, the Company was authorized to repurchase shares of its common stock on the open market from time to time through June 15, 2009, up to an aggregate purchase price of \$200.0 million. On March 18, 2008, the Company announced that its Board of Directors had increased the share repurchase program authorization by an additional \$200.0 million, to a total repurchase authorization of \$400.0 million. Shares repurchased under the program are retired. Depending on market conditions and other factors, these repurchases

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

may be commenced or suspended at any time, or from time to time, without prior notice. For the three months ended March 31, 2008, the Company repurchased and retired 2,114,500 shares of its common stock, at a cost of \$77.5 million, an average repurchase price of \$36.64 per share.

From inception of the program through May 5, 2008, the Company has repurchased and retired 5,825,489 shares of its common stock at a total cost of \$212.0 million, of which 1,074,000 shares were purchased from April 1, 2008 through May 5, 2008 at a cost of \$40.0 million.

**9. Segment Reporting**

The Company's operations are managed through four operating segments: Americas, EuroAsia, London Market and U.S. Insurance. The Americas division is comprised of the Company's reinsurance operations in the United States, Canada and Latin America, and writes property and casualty business on a treaty and facultative basis. The EuroAsia division writes treaty and facultative reinsurance business. The London Market division operates through three distribution channels, Newline at Lloyd's and NACL, which focus on casualty insurance, and the London branch, which focuses on worldwide property and casualty reinsurance. The U.S. Insurance division writes specialty insurance lines and classes of business, such as medical malpractice, professional liability and non-standard automobile.

The financial results of these divisions for the three months ended March 31, 2008 and 2007 are as follows (in thousands):

<b>Three Months Ended March 31, 2008</b>	<b>London</b>			<b>U.S.</b>

Losses and loss adjustment expenses	67.1%	73.7%	63.9%	66.6%	68.2%
Acquisition costs and other underwriting expenses	30.3	27.1	26.5	25.9	28.1
Combined ratio	97.4%	100.8%	90.4%	92.5%	96.3%

**10. Commitments and Contingencies**

On September 7, 2005, the Company announced that it had been advised by Fairfax that Fairfax had received a subpoena from the Securities and Exchange Commission (“SEC”) requesting documents regarding any non-traditional insurance and reinsurance transactions entered into or offered by Fairfax and any of its affiliates, which included OdysseyRe. The United States Attorney’s Office for the Southern District of New York is reviewing documents provided to the SEC in response to the subpoena, and is participating in the investigation into these matters. In addition, the Company provided information and made a presentation to the SEC and the U.S. Attorney’s office relating to the restatement of the Company’s financial results announced by it on February 9, 2006 and responded to questions with respect to transactions that were part of the restatement. This inquiry is ongoing, and the Company is cooperating fully in addressing its obligations under this subpoena. At the present time, the Company cannot predict the outcome of these matters, or the ultimate effect on the Company’s consolidated financial statements, which effect could be material and adverse. No assurance can be made that the Company will not be subject to further requests or other regulatory proceedings of a similar kind.

During the second quarter of 2004, Odyssey America pledged U.S. Treasury Notes with a par value of \$162.0 million (“the pledged assets”), or approximately £110.0 million equivalent, to the Society and Council of Lloyd’s on behalf of Advent Capital (Holdings) PLC (“Advent”) to support Advent’s underwriting activities for the 2001 to 2005 underwriting years of account. Advent is 44.5% owned by Fairfax and its affiliates, which includes 8.1% held by OdysseyRe. nSpire Re had previously pledged assets at Lloyd’s on behalf of Advent pursuant to a November 2000 agreement with Advent. Advent is responsible for the payment of any losses to support its underwriting activities and the capital resources of Advent, including its funds deposited at Lloyd’s, are first available to support any losses prior to a draw down of Odyssey America’s pledged assets. In consideration of Odyssey America pledging the assets, nSpire Re agreed to pay Odyssey America a fee equal to 2.0% per annum of

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

the pledged assets, which the Company considers to be representative of commercial market terms. The pledged assets continue to be owned by Odyssey America, and Odyssey America receives any investment income thereon. The securities are carried at fair value and are included in investments and cash in OdysseyRe's consolidated balance sheets. Interest earned on the securities is included in investment income. As additional consideration for, and further protection of, the pledged assets, nSpire Re has provided Odyssey America with indemnification in the event of a draw down on the pledged assets. Odyssey America retains the right to withdraw the pledged assets at any time upon 180 days advance written notice to nSpire Re. nSpire Re retains the obligation to pledge assets on behalf of Advent. In any event, the placement of funds at Lloyd's will automatically terminate effective no later than December 31, 2008 and any remaining pledged assets will revert to Odyssey America at that time. The pledge of assets is not considered material to OdysseyRe's consolidated financial position. In January 2006, September 2006 and June 2007, Odyssey America received assets with par values of \$48.6 million, \$10.7 million and \$14.6 million, respectively, in each case representing a permanent reduction and unconditional release of such amount, prior to the stated termination date, following the deposit by Advent of such amount in new funds at Lloyd's. Following these returns of assets, and as of March 31, 2008, Odyssey America continues to have a par value of \$88.1 million, or approximately £44.3 million equivalent, pledged to Lloyd's in support of Advent and will continue to receive a fee for these pledged assets. The fair value of the pledged assets as of March 31, 2008 is \$115.9 million, or approximately £58.3 million equivalent. OdysseyRe believes that the financial resources of Advent provide adequate protection to support its liabilities in the ordinary course of business.

The Company participates in Lloyd's through its 100% ownership of Newline, through which the Company provides 100% of the capacity for Newline Syndicate 1218 ("Syndicate 1218"). The results of Syndicate 1218 are consolidated in the financial statements of the Company. In support of Syndicate 1218's capacity at Lloyd's, Odyssey America has pledged U.S. Treasury Notes and cash with a fair value of \$207.0 million as of March 31, 2008 in a deposit trust account in favor of the Society and Council of Lloyd's. These securities may be substituted with other securities at the discretion of the Company, subject to approval by Lloyd's. The securities are carried at fair value and are included in investments and cash in the Company's consolidated balance sheets. Interest earned on the securities is included in investment income. The pledge of assets in support of Syndicate 1218 provides the Company with the ability to participate in writing business through Lloyd's, which remains an important part of the Company's business. The pledged assets effectively secure the contingent obligations of Syndicate 1218 should it not meet its obligations. Odyssey America's contingent liability to the Society and Council of Lloyd's is limited to the aggregate amount of the pledged assets. The Company has the ability to remove funds at Lloyd's annually, subject to certain minimum amounts required to support outstanding liabilities as determined under risk-based capital models and approved by Lloyd's. The funds used to support outstanding liabilities are adjusted annually and the obligations of the Company to support these liabilities will continue until they are settled or the liabilities are reinsured by a third party approved by Lloyd's. The Company expects to continue to actively operate Syndicate 1218 and support its requirements at Lloyd's. The Company believes that Syndicate 1218 maintains sufficient liquidity and financial resources to support its ultimate liabilities and the Company does not anticipate that the pledged assets will be utilized.

Clearwater agreed to allow Fairmont Specialty Insurance Company ("Fairmont"), a subsidiary of Fairfax formerly known as Ranger Insurance Company, to attach an assumption of liability endorsement of Clearwater to certain Fairmont policies issued from July 1, 1999 to April 30, 2004, the effective termination date of the agreement. Should Fairmont fail to meet its obligations, Clearwater is ultimately liable for any unpaid losses, pursuant to the terms of the endorsements. This arrangement enabled Fairmont to provide additional security to its customers as a result of Clearwater's financial strength ratings and capital resources. The agreement to provide the endorsements was provided by Clearwater while each company was 100% owned by Fairfax. The potential exposure in connection with these endorsements is currently estimated at \$0.7 million, based on the subject policies' outstanding case loss reserves as of March 31, 2008. Fairmont has met and continues to meet all of its obligations, including those subject to this agreement, in the normal course of business, and Clearwater does not anticipate making any payments under this guarantee. The Company believes that the financial resources of Fairmont provide

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

adequate protection to support its liabilities in the ordinary course of business. In addition, Fairfax has indemnified Clearwater for any obligations under this guarantee. The Company does not consider its potential exposure under this guarantee to be material to its consolidated financial position.

As of July 14, 2000, Odyssey America agreed to guarantee the performance of all the insurance and reinsurance contract obligations, whether incurred before or after the agreement, of Compagnie Transcontinentale de Réassurance (“CTR”), a subsidiary of Fairfax, in the event CTR became insolvent and CTR was not otherwise indemnified under its guarantee agreement with a Fairfax affiliate. The guarantee, which was entered into while Odyssey America and CTR were each 100% owned by Fairfax, was provided by Odyssey America to facilitate the transfer of renewal rights to CTR’s business, together with certain CTR employees, to Odyssey America in 2000 in order to further expand the Company’s international reinsurance business. The guarantee was terminated effective December 31, 2001. There were no amounts received from CTR under the guarantee, and the Company did not provide any direct consideration for the renewal rights to the business of CTR. CTR was dissolved and its assets and liabilities were assumed by subsidiaries of Fairfax that have the responsibility for the run-off of its liabilities. Although CTR’s liabilities were assumed by Fairfax subsidiaries, the guarantee only pertains to those liabilities attaching to the policies written by CTR. Fairfax has agreed to indemnify Odyssey America for all its obligations incurred under its guarantee. The Company believes that the financial resources of the Fairfax subsidiaries that have assumed CTR’s liabilities provide adequate protection to satisfy the obligations that are subject to this guarantee. The Company does not expect to make payments under this guarantee and does not consider its potential exposure under this guarantee to be material to its consolidated financial position.

Odyssey America agreed, as of April 1, 2002, to guarantee the payment of all of the insurance contract obligations (the “Subject Contracts”), whether incurred before or after the agreement, of Falcon Insurance Company (Hong Kong) Limited (“Falcon”), a subsidiary of Fairfax Asia Limited (“Fairfax Asia”), in the event Falcon becomes insolvent. Fairfax Asia is 100% owned by Fairfax, which includes a 26.0% economic interest owned by the Company. The guarantee by Odyssey America was made to assist Falcon in writing business through access to Odyssey America’s financial strength ratings and capital resources. Odyssey America is paid a fee for this guarantee of one percent of all gross premiums earned associated with the Subject Contracts on a quarterly basis. For each of the three month periods ended March 31, 2008 and 2007, Falcon paid \$0.1 million to Odyssey America in connection with this agreement. Odyssey America’s potential exposure in connection with this agreement is estimated to be \$47.3 million, based on Falcon’s loss reserves at March 31, 2008. Falcon’s shareholders’ equity on a U.S. GAAP basis is estimated to be \$54.5 million as of March 31, 2008. Fairfax has agreed to indemnify Odyssey America for any obligation under this agreement. The Company believes that the financial resources of Falcon provide adequate protection to support its liabilities in the ordinary course of business. The Company anticipates that Falcon will meet all of its obligations in the normal course of business and does not expect to make any payments under this guarantee. The Company does not consider its exposure under this guarantee to be material to its consolidated financial position.

The Company organized O.R.E Holdings Limited (“ORE”), a corporation domiciled in Mauritius, on December 30, 2003 to act as a holding company for various investments in India. On January 29, 2004, ORE was capitalized by the Company in the amount of \$16.7 million. ORE is consolidated in the Company’s consolidated financial statements. During 2004, ORE entered into a joint venture agreement relating to the purchase by ORE of 45% of Cheran Enterprises Private Limited (“CEPL”). CEPL is a corporation domiciled in India, engaged in the purchase, development and sale of commercial real estate properties. The joint venture agreement governing CEPL contains a provision whereby Odyssey America could have been called upon to provide a guarantee of a credit facility, if such a facility had been established by CEPL, in an amount up to \$65.0 million for the funding of proposed developments. The credit agreement was never established, and the requisite conditions for any future provision of the guarantee no longer exist. ORE’s Indian joint venture partner is claiming that the guarantee should be available and is pursuing legal actions against the Company. The Company finds this claim without merit and is vigorously defending the legal actions. The Company did not recognize an other-than-temporary write-down in the carrying value of ORE for the three months ended March 31, 2008, however, as of

**ODYSSEY RE HOLDINGS CORP.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

March 31, 2008, the Company had written down the value of its investment in ORE by \$9.9 million. The carrying value of the Company's investment in ORE as of both March 31, 2008 and December 31, 2007 was \$6.7 million.

The Company and its subsidiaries are involved from time to time in ordinary litigation and arbitration proceedings as part of the Company's business operations. In management's opinion, the outcome of these suits, individually or collectively, is not likely to result in judgments that would be material to the financial condition or results of operations of the Company.

**11. Employee Benefits**

The Company maintains a qualified, non-contributory, defined benefit pension plan ("Defined Benefit Pension Plan") covering substantially all employees who have reached age twenty-one and who have completed one year of service. The Company also maintains two non-qualified excess benefit plans ("Excess Benefit Plans") that provide officers and certain employees with defined retirement benefits in excess of qualified plan limits imposed by federal tax law. In addition, certain health care and life insurance benefits for retired employees ("Postretirement Benefit Plan") are provided by the Company. Generally, all employees may become eligible for these postretirement benefits if they reach retirement age while working for the Company.

Net periodic benefit cost, before taxes, included in the Company's consolidated statements of operations for the three months ended March 31, 2008 and 2007 is comprised of the following components (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
<b>Defined Benefit Pension Plan:</b>		
Service cost	\$ 1,331	\$ 1,268
Interest cost	843	745
Return on assets	(645)	(621)
Recognized net actuarial loss	177	165
Net amortization and deferral	14	14
Net periodic benefit cost	\$ 1,720	\$ 1,571
<b>Excess Benefit Plans:</b>		
Service cost	\$ 210	\$ 200
Interest cost	213	208
Recognized net actuarial loss	61	70
Recognized prior service cost	(9)	(9)
Other	—	1
Net periodic benefit cost	\$ 475	\$ 470
<b>Postretirement Benefit Plan:</b>		
Service cost	\$ 447	\$ 407
Interest cost	220	177
Net amortization and deferral	(26)	(26)
Net periodic benefit cost	\$ 641	\$ 558

No contributions have been made to the above plans for the three months ended March 31, 2008 and 2007.

As of December 31, 2008, SFAS 158 requires employers to measure plan assets and liabilities as of the date of their financial statements. The Supplemental Employee Retirement Plan and the Postretirement Benefit Plan are not

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

affected by this revision as the measurement date for these plans has historically been December 31. However, the measurement date for the Defined Benefit Pension Plan and the Supplemental Plan will be changed from October 1 to December 31. The Company has elected to apply the “fifteen-month” approach for these two benefit plans to measure plan assets and liabilities as of the plans’ current measurement date of October 1, 2007, for a fifteen-month period through December 31, 2008. As of January 1, 2008, the net periodic benefit costs of \$1.8 million (\$1.2 million after tax) and the change in the minimum benefit plan liabilities of \$0.2 million (\$0.1 million, after tax) for the period October 1 through December 31, 2007 related to the Defined Benefit Pension Plan and Supplemental Plan have been reflected as a direct charge to retained earnings and an increase to accumulated other comprehensive income, respectively. In addition to the transition adjustment to retained earnings and accumulated other comprehensive income, the Company will reflect, in its consolidated statement of operations, the net periodic benefit cost, for the full year of 2008 for each of the Company’s benefit plans, as follows (in thousands):

	<b>Estimate for the Year Ended December 31, 2008</b>
	<b>_____</b>
Defined Benefit Pension Plan	\$ 6,877
Supplemental Plan	304
Supplemental Employee Retirement Plan	1,595
Total Excess Benefit Plans	1,899
Postretirement Benefit Plan	2,562
Total estimated net periodic benefit cost for the year ended December 31, 2008, before tax	\$ 11,338

**12. Stock-Based Compensation Plans**

As of March 31, 2008, the Company had three stock-based compensation plans (the “Plans”): the Odyssey Re Holdings Corp. 2002 Stock Incentive Plan (the “2002 Option Plan”), the Odyssey Re Holdings Corp. Stock Option Plan (the “2001 Option Plan”) and the Odyssey Re Holdings Corp. Restricted Share Plan (the “Restricted Share Plan”). The Plans generally allow for the issuance of grants and exercises through newly issued shares, treasury stock, or any combination thereof. The following is the Company’s recognized expense and the resulting tax benefit related to the Plans for the three months ending March 31, 2008 and 2007, respectively (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
	<b>_____</b>	<b>_____</b>
Stock-based compensation expense	\$ 2,127.8	\$ 1,422.5
Tax benefit	744.7	497.9

For the three months ended March 31, 2008 and 2007, the Company received \$0.2 million and \$1.1 million, respectively, in cash from employees for the exercise of stock options.

As of March 31, 2008, there was less than \$0.1 million of unrecognized compensation cost related to unvested options from the 2002 Option Plan, which is expected to be recognized over a remaining weighted-average vesting period of 1.8 years. The Company did not grant any stock options during the three months ended March 31, 2008 and 2007, respectively, under the 2002 Option Plan.

As of March 31, 2008, there was \$3.7 million of unrecognized compensation cost related to unvested options granted from the 2001 Option Plan, which is expected to be recognized over a remaining weighted-average vesting period of 2.5 years. The Company granted 55,412 stock options and 48,703 stock options during the three months ended March 31, 2008 and 2007, respectively, under the 2001 Option Plan.

**ODYSSEY RE HOLDINGS CORP.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) — (Continued)**

As of March 31, 2008, there was \$17.6 million of unrecognized compensation cost related to unvested restricted share awards from the Restricted Share Plan, which is expected to be recognized over a remaining weighted-average vesting period of 2.6 years. The Company granted 192,654 restricted share awards and 166,888 restricted share awards during the three months ended March 31, 2008 and 2007, respectively, under the Restricted Share Plan.

**13. Recent Accounting Pronouncements**

In June 2007, the American Institute of Certified Public Accountants (“AICPA”) issued Statement of Position 07-1 (“SOP 07-1”), “Clarification of the Scope of the Audit and Accounting Guide for Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies,” to assist entities in determining if the guidance of the AICPA Audit and Accounting Guide for Investment Companies should be followed and whether the industry accounting should be utilized by parent companies and other investees that exercise significant influence over the investment company. SOP 07-1 requires extensive disclosures, if the entity falls under the definition of an investment company, or the entity is a parent or equity method investor that owns an investment that falls within the scope of investment company accounting. The Company anticipates that the adoption of SOP 07-1 will not have a material effect on its consolidated financial position or results of operations. SOP 07-1 will require the Company to make additional disclosures regarding certain investments. In February 2008, the FASB issued FASB Staff Position (“FSP”) SOP 07-1-1, “Effective Date of AICPA Statement of Position 07-1,” which indefinitely delayed the effective date of SOP 07-1 until further review can be performed by the FASB to determine the proper application of this pronouncement.

In December 2007, the FASB issued SFAS 141(R), “Business Combinations,” to replace SFAS 141, “Business Combinations.” While several items from SFAS 141 were retained, including the acquisition method of accounting and the recognition of intangible assets separately from goodwill, SFAS 141(R) broadens its scope and establishes a definition of the acquirer and the acquisition date. SFAS 141(R) should be applied on a prospective basis in the first annual reporting period beginning on or after December 15, 2008. Earlier application is prohibited.

In December 2007, the FASB issued SFAS 160, “Non-controlling Interests in Consolidated Financial Statements,” which amends Accounting Research Bulletin 51, “Consolidated Financial Statements,” to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies the definition of a non-controlling interest and the proper accounting for that entity. SFAS 160 is effective for fiscal years beginning on or after December 15, 2008. Earlier adoption is prohibited. The Company is evaluating the impact of the adoption of SFAS 160, if any, on its consolidated financial statements.

In March 2008, the FASB issued SFAS 161, “Disclosures About Derivative Instruments and Hedging Activities,” which requires additional disclosures for derivative and hedging activities. While earlier application is encouraged, SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. SFAS 161 does not require, but encourages comparative application to prior periods at the initial adoption date. The Company is currently evaluating the impact of the adoption of SFAS 161, if any, on its disclosures within its financial statements.

**PART I — Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

**Overview**

Odyssey Re Holdings Corp. is a holding company, incorporated in the state of Delaware, which owns all of the common shares of Odyssey America Reinsurance Corporation, its principal operating subsidiary. Odyssey America directly or indirectly owns all of the capital stock of the following companies: Clearwater Insurance Company (“Clearwater”); Clearwater Select Insurance Company; Odyssey UK Holdings Corporation; Newline Underwriting Management Ltd., which owns and manages Newline Syndicate 1218, a member of Lloyd’s of London (collectively “Newline”); Newline Insurance Company Limited (“NICTL”); Hudson Insurance Company; Hudson Specialty Insurance Company; and Napa River Insurance Services, Inc.

We are a leading underwriter of reinsurance, providing a full range of property and casualty products on a worldwide basis. We offer a broad range of both treaty and facultative reinsurance to property and casualty insurers and reinsurers. We also write insurance in the United States and through the Lloyd’s marketplace.

Our gross premiums written for the three months ended March 31, 2008 were \$577.6 million, an increase of \$9.4 million, or 1.7%, compared to gross premiums written for the three months ended March 31, 2007 of \$568.2 million. Our United States business accounted for 46.8% of our gross premiums written for the three months ended March 31, 2008, compared to 52.6% for the three months ended March 31, 2007. For the three months ended March 31, 2008 and 2007, we had net income available to common shareholders of \$249.0 million and \$86.6 million, respectively. As of March 31, 2008, we had total assets of \$9.8 billion and total shareholders’ equity of \$2.8 billion.

The property and casualty reinsurance and insurance industries use the combined ratio as a measure of underwriting profitability. The combined ratio under generally accepted accounting principles (“GAAP”) in the United States is the sum of losses and loss adjustment expenses (“LAE”) incurred as a percentage of net premiums earned, plus underwriting expenses, which include acquisition costs and other underwriting expenses, as a percentage of net premiums earned. The combined ratio reflects only underwriting results, and does not include investment results. Underwriting profitability is subject to significant fluctuations due to catastrophic events, competition, economic and social conditions, foreign currency fluctuations and other factors. Our combined ratio was 98.4% for the three months ended March 31, 2008, compared to 96.3% for the three months ended March 31, 2007.

We operate our business through four divisions: the Americas, EuroAsia, London Market and U.S. Insurance.

The Americas division is our largest division and writes casualty, surety and property treaty reinsurance, and facultative casualty reinsurance, in the United States and Canada, and primarily treaty and facultative property reinsurance in Central and South America.

The EuroAsia division consists of our international reinsurance business, which is geographically dispersed, mainly throughout the European Union, and includes business in the Pacific Rim, Eastern Europe, the Middle East and Japan.

The London Market division is comprised of our Lloyd’s of London business, in which we participate through our 100% ownership of Newline, our London branch office, and NICTL, our London-based insurance company. The London Market division writes insurance and reinsurance business worldwide, principally through brokers.

The U.S. Insurance division writes specialty insurance lines and classes of business, such as medical malpractice, professional liability, non-standard personal and commercial automobile, specialty liability, and property and package.

***Premium Outlook***

Our net premiums written could decline by as much as 10% for the year ended December 31, 2008 as compared to 2007, principally as a result of competitive market conditions. The potential decrease in our premiums written is expected to be partially offset by new business underwritten by Newline Syndicate 1218, NICTL and our U.S. Insurance division.

## [Table of Contents](#)

### **Critical Accounting Estimates**

The consolidated financial statements and related notes included in Part I, Item 1 of this Form 10-Q have been prepared in accordance with GAAP and include the accounts of Odyssey Re Holdings Corp. and its subsidiaries.

Critical accounting estimates are defined as those that are both important to the portrayal of our financial condition and results of operations and require us to exercise significant judgment. The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of material contingent assets and liabilities, including litigation contingencies. These estimates, by necessity, are based on assumptions involving numerous factors.

We review our critical accounting estimates and assumptions on a quarterly basis. These reviews include, but are not limited to, the estimate of reinsurance premiums and premium related amounts, establishing deferred acquisition costs, an evaluation of the adequacy of reserves for unpaid losses and LAE, review of our reinsurance and retrocession agreements, an analysis of the recoverability of deferred income tax assets and an evaluation of the investment portfolio for other-than-temporary declines in estimated fair value. Actual results may differ materially from the estimates and assumptions used in preparing the consolidated financial statements.

Readers should review our 2007 Annual Report on Form 10-K for a more complete description of our significant accounting policies and accounting estimates.

#### ***Premium Estimates***

We derive our revenues from two principal sources: (i) premiums from insurance placed and reinsurance assumed, net of premiums ceded (net premiums written) and (ii) income from investments. Net premiums written are earned (net premiums earned) as revenue over the terms of the underlying contracts or certificates in force. The relationship between net premiums written and net premiums earned will, therefore, vary depending on the volume and inception dates of the business assumed and ceded, and the mix of such business between proportional and excess of loss reinsurance.

Consistent with our significant accounting policies, for our reinsurance business we utilize estimates in establishing premiums written, the corresponding acquisition expenses, and unearned premium reserves. These estimates are required to reflect differences in the timing of the receipt of accounts from the ceding company and the actual due dates of the accounts at the close of each accounting period.

## Table of Contents

The following table displays, by division, the estimates included in our consolidated financial statements as of March 31, 2008 and 2007 and December 31, 2007 and 2006 related to gross premiums written, acquisition costs, premiums receivable and unearned premium reserves (in millions):

Division	As of March 31, 2008	As of December 31, 2007	Change	As of March 31, 2007	As of December 31, 2006	Change
<b>Gross Premiums Written</b>						
Americas	\$ 175.5	\$ 177.5	\$ (2.0)	\$ 196.2	\$ 218.5	\$ (22.3)
EuroAsia	136.3	129.9	6.4	138.4	132.1	6.3
London Market	20.6	21.8	(1.2)	44.8	38.5	6.3
<b>Total</b>	<b>\$ 332.4</b>	<b>\$ 329.2</b>	<b>\$ 3.2</b>	<b>\$ 379.4</b>	<b>\$ 389.1</b>	<b>\$ (9.7)</b>
<b>Acquisition Costs</b>						
Americas	\$ 44.9	\$ 42.5	\$ 2.4	\$ 41.7	\$ 49.4	\$ (7.7)
EuroAsia	46.1	38.9	7.2	43.9	40.6	3.3
London Market	1.9	2.1	(0.2)	4.5	3.0	1.5
<b>Total</b>	<b>\$ 92.9</b>	<b>\$ 83.5</b>	<b>\$ 9.4</b>	<b>\$ 90.1</b>	<b>\$ 93.0</b>	<b>\$ (2.9)</b>
<b>Premiums Receivable</b>						
Americas	\$ 130.6	\$ 135.0	\$ (4.4)	\$ 154.5	\$ 169.1	\$ (14.6)
EuroAsia	90.2	91.0	(0.8)	94.5	91.5	3.0
London Market	18.7	19.7	(1.0)	40.3	35.5	4.8
<b>Total</b>	<b>\$ 239.5</b>	<b>\$ 245.7</b>	<b>\$ (6.2)</b>	<b>\$ 289.3</b>	<b>\$ 296.1</b>	<b>\$ (6.8)</b>
<b>Unearned Premiums Reserve</b>						
Americas	\$ 116.4	\$ 122.9	\$ (6.5)	\$ 125.7	\$ 139.1	\$ (13.4)
EuroAsia	87.2	97.2	(10.0)	89.6	100.8	(11.2)
London Market	8.4	10.0	(1.6)	17.6	13.1	4.5
<b>Total</b>	<b>\$ 212.0</b>	<b>\$ 230.1</b>	<b>\$ (18.1)</b>	<b>\$ 232.9</b>	<b>\$ 253.0</b>	<b>\$ (20.1)</b>

Gross premiums written estimates, acquisition costs, premiums receivable and unearned premium reserves are established on a contract level for significant accounts due but not reported by the ceding company at the end of each accounting period. The estimated ultimate premium for the contract, actual accounts reported by the ceding company, and our own experience on the contract are considered in establishing the estimate at the end of each accounting period. Subsequent adjustments based on actual results are recorded in the period in which they become known. The estimated premiums receivable balances are considered fully collectible. The estimates primarily represent the most current two underwriting years of account for which all corresponding reported accounts have been settled within contract terms. The estimates are considered "critical accounting estimates" because changes in these estimates can materially affect net income.

The difference between estimates and the actual accounts received may be material as a result of different reporting practices by ceding companies across geographic locations. Estimates may be subject to material fluctuations on an individual contract level compared to the actual information received, and any differences are recorded in the respective financial period in which they become known. Since the assumptions used to determine the estimates are reviewed quarterly and compared to the information received during the quarter, the variance in the aggregate estimates compared to the actual information when received is minimized. In addition, during the quarter's review of these contracts, any change in original estimate compared to the new estimate is reflected in the appropriate financial period.

In any specific financial period, the original estimated premium for a specific contract may vary from actual premium reported through the life of the contract by up to 10% to 15% due to the reporting patterns of the ceding companies and, in some cases, movements in foreign exchange rates over the period. However, historically, the final reported premium compared to the original estimated premium has deviated by smaller amounts.

## [Table of Contents](#)

Our estimates are based on contract and policy terms. Estimates are based on information typically received in the form of a bordereau, broker notifications and/or discussions with ceding companies. These estimates, by necessity, are based on assumptions regarding numerous factors. These can include premium or loss trends, which can be influenced by local conditions in a particular region, or other economic factors and legal or legislative developments which can develop over time. The risk associated with estimating the performance under our contracts with our ceding companies is the impact of events or trends that could not have been reasonably anticipated at the time the estimates were performed. Our business is diversified across ceding companies and there is no individual ceding company that represents more than 1.7% of our gross premiums written for the three months ended March 31, 2008. As a result, we believe the risks of material changes over time are mitigated.

We review information received from ceding companies for reasonableness based on past experience with the particular ceding company or our general experience across the subject class of business. We also query information provided by ceding companies for reasonableness. Reinsurance contracts under which we assume business generally contain specific provisions which allow us to perform audits of the ceding company to ensure compliance with the terms and conditions of the contract, including accurate and timely reporting of information.

Management must make judgments about the ultimate premiums written and earned by us. Reported premiums written and earned are based upon reports received from ceding companies, supplemented by our internal estimates of premiums written for which ceding company reports have not been received. We establish our own estimates based on discussions and correspondence with our ceding companies and brokers during the contract negotiation process and over the contract risk period. The determination of premium estimates requires a review of our experience with the ceding companies, familiarity with each market, an analysis and understanding of the characteristics of each line of business, and the ability to project the impact of current economic indicators on the volume of business written and ceded by our cedants. Premium estimates are updated when new information is received. Differences between such estimates and actual amounts are recorded in the period in which estimates are changed or the actual amounts are determined.

### ***Reserves for Unpaid Losses and Loss Adjustment Expenses***

Our losses and LAE reserves, for both reported and unreported claims obligations, are maintained to cover the estimated ultimate liability for all of our insurance and reinsurance obligations. Losses and LAE reserves are categorized in one of three ways: (i) case reserves, which represent unpaid losses and LAE as reported by cedants to us, (ii) additional case reserves (“ACRs”), which are reserves we establish in excess of the case reserves reported by the cedant on individual claim events, and (iii) incurred but not reported reserves (“IBNR”), which are reserves for losses and LAE that have been incurred, but have not yet been reported to us, as well as additional amounts relating to losses already reported, that are in excess of case and ACR reserves. Incurred but not reported reserves are estimates based on all information currently available to us and are reevaluated quarterly utilizing the most recent information supplied by our cedants.

We rely on initial and subsequent claims reports received from ceding companies for reinsurance business, and the estimates advised by our claims adjusters for insurance business, to establish our estimates of losses and LAE. The types of information that we receive from ceding companies generally vary by the type of contract. Proportional, or quota share, contracts are typically reported on a quarterly basis, providing premium and loss activity as estimated by the ceding company. Reporting for excess of loss and facultative contracts includes detailed individual claim information, including a description of the loss, confirmation of liability by the cedant and the cedant’s current estimate of the ultimate liability under the claim. Upon receipt of claims notices from cedants, we review the nature of the claim against the scope of coverage provided under the contract. Questions arise from time to time regarding the interpretation of the characteristics of a particular claim measured against the scope of contract terms and conditions. Reinsurance contracts under which we assume business generally contain specific dispute resolution provisions in the event that there is a coverage dispute with the ceding company. The resolution of any individual dispute may impact estimates of ultimate claim liabilities. Reported claims are in various stages of the settlement process. Each claim is settled individually based on its merits, and certain claims may take several years to ultimately settle, particularly where legal action is involved. Based on an assessment of the circumstances supporting the claim, we may choose to establish additional case reserves over the amount reported by the ceding company. Aggregate case reserves established in addition to reserves reported by ceding companies were \$18.2 million and \$18.7 million as of

## [Table of Contents](#)

March 31, 2008 and December 31, 2007, respectively. Due to potential differences in ceding company reserving and reporting practices, we perform periodic audits of our ceding companies to ensure that the underwriting and claims procedures of the cedant are consistent with representations made by the cedant during the underwriting process and meet the terms of the reinsurance contract. Our estimates of ultimate loss liabilities make appropriate adjustment for inconsistencies uncovered in this audit process. We also monitor our internal processes to ensure that information received from ceding companies is processed in a timely manner.

The reserve methodologies employed by us are dependent on the nature and quality of the data that we collect from ceding companies. This data primarily consists of loss amounts reported by ceding companies, loss payments made by ceding companies, and premiums written and earned reported by ceding companies or estimated by us. Underwriting and claim information provided by our ceding companies is aggregated by the year in which each treaty is written into groups of business by geographic region and type of business to facilitate analysis, generally referred to as "reserve cells." These reserve cells are reviewed annually and change over time as our business mix changes. We supplement this information with claims and underwriting audits of specific contracts, internally developed pricing trends, as well as loss trend data developed from industry sources. This information is used to develop point estimates of carried reserves for each business segment. These individual point estimates, when aggregated, represent the total carried losses and LAE reserves carried in our consolidated financial statements. Due to the uncertainty involving estimates of ultimate loss exposures, we do not attempt to produce a range around our point estimate of loss. The actuarial techniques for projecting losses and LAE reserves by reserve cell rely on historical paid and case reserve loss emergence patterns and insurance and reinsurance pricing trends to establish the claims emergence in future periods with respect to all reported and unreported insured events that have occurred on or before the balance sheet date.

Our estimate of ultimate loss is determined based on a review of the results of several commonly accepted actuarial projection methodologies incorporating the quantitative and qualitative information described above. The specific methodologies we utilize in our loss reserve review process include, but may not be limited to (i) incurred and paid loss development methods, (ii) incurred and paid Bornhuetter Ferguson ("BF") methods and (iii) loss ratio methods. The incurred and paid loss development methods utilize loss development patterns derived from historical loss emergence trends usually based on cedant supplied claim information to determine ultimate loss. These methods assume that the ratio of losses in one period to losses in an earlier period will remain constant in the future. Loss ratio methods multiply expected loss ratios, derived from aggregated analyses of internally developed pricing trends, by earned premium to determine ultimate loss. The incurred and paid BF methods are a blend of the loss development and loss ratio methods. These methods utilize both loss development patterns, as well as expected loss ratios, to determine ultimate loss. When using the BF methods, the initial treaty year ultimate loss is based primarily on expected loss ratios. As loss experience matures, the estimate of ultimate loss using this methodology is based primarily on loss development patterns. We generally do not utilize methodologies that are dependent on claim counts reported, claim counts settled or claim counts open. Due to the nature of our business, this information is not routinely provided by ceding companies for every treaty. Consequently, actuarial methods utilizing this information generally cannot be relied upon by us in our loss reserve estimation process. As a result, for much of our business, the separate analysis of frequency and severity loss activity underlying overall loss emergence trends is not practical. Generally, we rely on BF and loss ratio methods for estimating ultimate loss liabilities for more recent treaty years. These methodologies, at least in part, apply a loss ratio, determined from aggregated analyses of internally developed pricing trends across reserve cells, to premium earned on that business. Adjustments to premium estimates generate appropriate adjustments to ultimate loss estimates in the quarter in which they occur using the BF and loss ratio methods. To estimate losses for more mature treaty years, we generally rely on the incurred loss development methodology, which does not rely on premium estimates. In addition, we may use other methods to estimate liabilities for specific types of claims. For property catastrophe losses, we may utilize vendor catastrophe models to estimate ultimate loss soon after a loss occurs, where loss information is not yet reported to us from ceding companies. The provision for asbestos loss liabilities is established based on an annual review of internal and external trends in reported loss and claim payments, with monitoring of emerging experience on a quarterly basis. IBNR is determined by subtracting the total of paid loss and case reserves including ACRs from ultimate loss.

We complete comprehensive reserve reviews, which include a reassessment of loss development and expected loss ratio assumptions, on an annual basis. The results of these reviews are reflected in the period they are completed.

## Table of Contents

Quarterly, we compare actual loss emergence to expectations established by the comprehensive loss reserve review process. In the event that loss trends diverge from expected trends, we may have to adjust our reserves for losses and LAE accordingly. Any adjustments will be reflected in the periods in which they become known, potentially resulting in adverse or favorable effects to our financial results. We believe that the recorded estimate represents the best estimate of unpaid losses and LAE based on the information available at March 31, 2008.

Our most significant assumptions underlying our estimate of losses and LAE reserves are as follows: (i) that historical loss emergence trends are indicative of future loss development trends; (ii) that internally developed pricing trends provide a reasonable basis for determining loss ratio expectations for recent underwriting years; and (iii) that no provision is made for extraordinary future emergence of new classes of loss or types of loss that are not sufficiently represented in our historical database or that are not yet quantifiable if not in our database.

The ultimate settlement value of losses and LAE related to business written in prior periods for the three months ended March 31, 2008 was below our estimates of reserves for losses and LAE as previously established at December 31, 2007 by 0.1%, and for the three months ended March 31, 2007 exceeded our estimates of reserves for losses and LAE as previously established at December 31, 2006 by 0.1%. Any future impact to income of changes in losses and LAE estimates may vary considerably from historical experience. Our estimates of ultimate loss exposures are based upon the information we have available at any given point in time and our assumptions are based upon that information. Every one percentage point difference in the ultimate settlement value of loss exposures compared to our estimate of reserves for losses and LAE as of March 31, 2008 will impact pre-tax income by \$45.1 million.

If a change were to occur that increases the frequency and severity of claims underlying our March 31, 2008 unpaid losses and LAE, the approximate change in pre-tax income would be as follows (in millions):

	<b>Decrease in Pre-tax Income</b>
1.0% unfavorable change	\$ 45.1
2.5% unfavorable change	112.8
5.0% unfavorable change	225.5

Historically, our actual results have varied considerably in certain instances from our estimates of losses and LAE because historical loss emergence trends have not been indicative of future loss emergence for certain segments of our business. In recent years, we experienced loss emergence, resulting from a combination of higher claim frequency and severity of losses, greater than expectations that were established based on a review of prior years' loss emergence trends, particularly for business written in the late 1990s and early 2000s. General liability and excess workers' compensation classes of business during these years were adversely impacted by the highly competitive conditions in the industry at that time. These competitive conditions resulted in price pressure and relatively broader coverage terms, thereby affecting the ability of standard actuarial techniques to generate reliable estimates of ultimate loss. Similarly, directors' and officers' professional liability lines were impacted by the increase in frequency and severity of claims resulting from an increase in shareholder lawsuits against corporations and their officers and directors, corporate bankruptcies and other financial and management improprieties in the late 1990s and early 2000s.

The following table provides detail on net adverse (favorable) loss and LAE development for prior years, by division, for the three months ended March 31, 2008 and 2007 (in millions):

	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
Americas	\$ 4.4	\$ 15.1
EuroAsia	4.7	(3.4)
London Market	(8.4)	(8.6)
U.S. Insurance	(3.0)	(0.7)
<b>Total loss and LAE development</b>	<b>\$ (2.3)</b>	<b>\$ 2.4</b>

## [Table of Contents](#)

The Americas division reported net increases in prior period loss estimates of \$4.4 million and \$15.1 million for the three months ended March 31, 2008 and 2007, respectively. The increase in prior period loss estimates for the three months ended March 31, 2008 was principally attributable to an increase in asbestos loss estimates due to loss emergence greater than expectations in the period. The increase in prior period loss estimates for the three months ended March 31, 2007 was primarily due to loss emergence greater than expectations in the period on auto, general liability and aviation business.

The EuroAsia division reported a net increase in prior period loss estimates of \$4.7 million for the three months ended March 31, 2008 and a net decrease in prior period loss estimates of \$3.4 million for the three months ended March 31, 2007. The increase in prior period loss estimates for the three months ended March 31, 2008 was driven by loss emergence greater than expectations in the period on non-catastrophe property business. The reduction in prior period loss estimates for the three months ended March 31, 2007 was driven by loss emergence lower than expectations in the period on aviation and marine lines of business, partially offset by loss emergence greater than expectations in the period on motor and liability business.

The London Market division reported net decreases in prior period loss estimates of \$8.4 million and \$8.6 million for the three months ended March 31, 2008 and 2007, respectively. The decrease in prior period loss estimates for the three months ended March 31, 2008 resulted from favorable loss emergence trends on marine, satellite and professional liability business in the period. The decrease in prior period loss estimates for the three months ended March 31, 2007 resulted from favorable loss emergence trends on accident, satellite and aviation business.

The U.S. Insurance division reported net decreases in prior period loss estimates of \$3.0 million and \$0.7 million for the three months ended March 31, 2008 and 2007, respectively. The reduction in prior period loss estimates for the three months ended March 31, 2008 was principally attributable to loss emergence lower than expectations in the period on property and professional liability business, partially offset by loss emergence greater than expectations in the period on auto business. The reduction in prior period loss estimates for the three months ended March 31, 2007 was principally attributable to loss emergence lower than expectations in the period on auto business, partially offset by loss emergence greater than expectations in the period on general liability business.

Estimates of reserves for unpaid losses and LAE are contingent upon legislative, regulatory, social, economic and legal events and trends that may or may not occur or develop in the future, thereby affecting assumptions of claim frequency and severity. Examples of emerging claim and coverage issues and trends in recent years that could affect reserve estimates include developments in tort liability law, legislative attempts at asbestos liability reform, an increase in shareholder derivative suits against corporations and their officers and directors, and increasing governmental involvement in the insurance and reinsurance industry. The eventual outcome of these events and trends may be different from the assumptions underlying our loss reserve estimates. In the event that loss trends diverge from expected trends during the period, we adjust our reserves to reflect the change in losses indicated by revised expected loss trends. On a quarterly basis, we compare actual emergence of the total value of newly reported losses to the total value of losses expected to be reported during the period and the cumulative value since the date of our last reserve review. Variation in actual loss emergence from expectations may result in a change in our estimate of losses and LAE reserves. Any adjustments will be reflected in the periods in which they become known, potentially resulting in adverse or favorable effects to our financial results. Changes in expected claim payment rates, which represent one component of losses and LAE emergence, may impact our liquidity and capital resources, as discussed below in "Liquidity and Capital Resources."

## Table of Contents

The following table summarizes, by type of reserve, the unpaid losses and LAE reserves as of March 31, 2008 and December 31, 2007. Case reserves represent unpaid claim reports provided by cedants to us plus additional reserves determined by us. IBNR is the estimate of unreported loss liabilities established by us.

	As of March 31, 2008			As of December 31, 2007		
	Case Reserves	IBNR	Total Reserves	Case Reserves	IBNR	Total Reserves
	(In millions)					
<i>Americas</i>						
Gross	\$ 1,479.0	\$ 1,270.4	\$ 2,749.4	\$ 1,512.6	\$ 1,295.8	\$ 2,808.4
Ceded	(204.2)	(123.6)	(327.8)	(211.3)	(129.8)	(341.1)
Net	1,274.8	1,146.8	2,421.6	1,301.3	1,166.0	2,467.3
<i>EuroAsia</i>						
Gross	430.2	287.0	717.2	398.4	262.9	661.3
Ceded	(3.7)	(1.3)	(5.0)	(3.7)	(1.1)	(4.8)
Net	426.5	285.7	712.2	394.7	261.8	656.5
<i>London Market</i>						
Gross	364.3	687.1	1,051.4	357.5	675.5	1,033.0
Ceded	(54.4)	(76.7)	(131.1)	(57.2)	(68.9)	(126.1)
Net	309.9	610.4	920.3	300.3	606.6	906.9
<i>U.S. Insurance</i>						
Gross	162.5	460.1	622.6	162.9	453.5	616.4
Ceded	(39.3)	(124.9)	(164.2)	(36.9)	(134.6)	(171.5)
Net	123.2	335.2	458.4	126.0	318.9	444.9
<i>Total</i>						
Gross	2,436.0	2,704.6	5,140.6	2,431.4	2,687.7	5,119.1
Ceded	(301.6)	(326.5)	(628.1)	(309.1)	(334.4)	(643.5)
Net	\$ 2,134.4	\$ 2,378.1	\$ 4,512.5	\$ 2,122.3	\$ 2,353.3	\$ 4,475.6

The provision for IBNR in unpaid losses and LAE as of March 31, 2008 was \$2,378.1 million. For illustration purposes, a change in the expected loss ratio for recent treaty years that increases the three months ended March 31, 2008 calendar year loss ratio by 2.5 loss ratio points would increase IBNR by \$12.8 million. A change in loss emergence trends that increases unpaid losses and LAE at March 31, 2008 by 2.5% would increase IBNR by \$112.8 million.

We have exposure to asbestos, environmental pollution and other latent injury damage claims resulting from contracts written by Clearwater prior to 1986. Exposure arises from reinsurance contracts under which we assumed liabilities from ceding companies, on an indemnity or assumption basis, primarily in connection with general liability insurance policies issued by such ceding companies. Our estimate of our ultimate liability for these exposures includes case basis reserves and a provision for IBNR claims. The provision for asbestos loss liabilities is established based on an annual review of Company and external trends in reported loss and claim payments, with monitoring of emerging experience on a quarterly basis.

Estimation of ultimate asbestos and environmental liabilities is unusually complex due to several factors resulting from the long period between exposure and manifestation of these claims. This lag can complicate the identification of the sources of asbestos and environmental exposure, the verification of coverage, and the allocation of liability among insurers and reinsurers over multiple years. This lag also exposes the claim settlement process to changes in underlying laws and judicial interpretations. There continues to be substantial uncertainty regarding the ultimate number of insureds with injuries resulting from these exposures.

In addition, other issues have emerged regarding asbestos exposure that have further impacted the ability to estimate ultimate liabilities for this exposure. These issues include an increasingly aggressive plaintiffs' bar, an increased involvement of defendants with peripheral exposure, the use of bankruptcy filings due to asbestos liabilities as an attempt to resolve these liabilities to the disadvantage of insurers, the concentration of litigation in venues favorable to plaintiffs, and the potential of asbestos litigation reform at the state or federal level.

## [Table of Contents](#)

We believe that these uncertainties and factors make projections of these exposures, particularly asbestos, subject to less predictability relative to non-environmental and non-asbestos exposures. Current estimates, as of March 31, 2008, of our asbestos and environmental losses and LAE reserves, net of reinsurance, are \$212.1 million and \$33.9 million, respectively. Due to the uncertainty involving estimates of ultimate asbestos and environmental exposures, management does not attempt to produce a range around its best estimate of loss. See Note 7 to the consolidated financial statements for additional historical information on losses and LAE reserves for these exposures.

Net losses and LAE incurred for asbestos claims increased by \$4.0 million for the three months ended March 31, 2008. We did not incur net losses and LAE for environmental claims for the three months ended March 31, 2008. We did not incur net losses and LAE related to asbestos and environmental claims for the three months ended March 31, 2007. The following table provides the gross and net asbestos and environmental losses and LAE incurred for the three months ended March 31, 2008 (in millions):

	<b>Three Months Ended March 31, 2008</b>
<b>Asbestos</b>	
Gross losses and LAE incurred	\$ 10.7
Net losses and LAE incurred	4.0
<b>Environmental</b>	
Gross losses and LAE incurred	\$ —
Net losses and LAE incurred	—

### **Reinsurance and Retrocessions**

We purchase reinsurance to increase our aggregate premium capacity, to reduce and spread the risk of loss on our insurance and reinsurance business and to limit our exposure to multiple claims arising from a single occurrence. We are subject to accumulation risk with respect to catastrophic events involving multiple contracts. To protect against this risk, we purchase catastrophe excess of loss reinsurance protection. The retention, the level of capacity purchased, the geographical scope of the coverage and the costs vary from year to year. Specific reinsurance protections are also placed to protect our insurance business as well as selected portions of our reinsurance business underwritten outside of the United States.

We seek to limit the probable maximum loss to a specific level for severe catastrophic events. Currently, we generally seek to limit the probable maximum loss, after tax, including the effect of reinsurance protection and applicable reinstatement premiums, to a maximum of approximately 15% of statutory surplus for a severe catastrophic event in any geographic zone that could be expected to occur once in every 250 years, although this can change based on market opportunities. There can be no assurances that we will not incur losses greater than 15% of our statutory surplus from one or more catastrophic events due to the inherent uncertainties in estimating the frequency and severity of such events, the margin of error in making such determinations resulting from potential inaccuracies and inadequacies in the data provided by clients and brokers, and the modeling techniques and the application of such techniques.

When we purchase reinsurance protection, we cede to reinsurers a portion of our risks and pay premiums based upon the risk and exposure of the policies subject to the reinsurance. Although the reinsurers are liable to us for the reinsurance ceded, we retain the ultimate liability in the event the reinsurers are unable to meet their obligations at some later date.

## [Table of Contents](#)

Reinsurance recoverables are recorded as assets, based on our evaluation of the retrocessionaires' ability to meet their obligations under the agreements. Premiums written and earned are stated net of reinsurance ceded in the consolidated statements of operations. Direct insurance, reinsurance assumed, reinsurance ceded and net amounts for these items follow (in millions):

	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
<b>Premiums Written</b>		
Direct	\$ 192.4	\$ 160.7
Add: assumed	385.1	407.5
Less: ceded	59.7	42.0
<b>Net</b>	<b>\$ 517.8</b>	<b>\$ 526.2</b>
<b>Premiums Earned</b>		
Direct	\$ 180.9	\$ 171.8
Add: assumed	381.8	404.4
Less: ceded	51.3	37.3
<b>Net</b>	<b>\$ 511.4</b>	<b>\$ 538.9</b>

The total amount of reinsurance recoverables on paid and unpaid losses as of March 31, 2008 and December 31, 2007 was \$697.5 million and \$726.6 million, respectively. We have established a reserve for potentially uncollectible reinsurance recoverables based upon an evaluation of each retrocessionaire and our assessment as to the collectibility of individual balances. The reserve for uncollectible recoverables as of March 31, 2008 and December 31, 2007 was \$44.2 million and \$44.4 million, respectively, and has been netted against reinsurance recoverables on paid losses. We have also established a reserve for potentially uncollectible insurance and assumed reinsurance balances of \$1.7 million and \$1.5 million as of March 31, 2008 and December 31, 2007, respectively, which has been netted against premiums receivable.

### **Results of Operations**

#### *Three Months Ended March 31, 2008 Compared to Three Months Ended March 31, 2007*

##### *Underwriting Results*

*Gross Premiums Written.* Gross premiums written for the three months ended March 31, 2008 increased by \$9.4 million, or 1.7%, to \$577.6 million, compared to \$568.2 million for the three months ended March 31, 2007, as reflected in the following table (in millions):

<b>Division</b>	<b>Three Months Ended March 31,</b>		<b>Change</b>	
	<b>2008</b>	<b>2007</b>	<b>\$</b>	<b>%</b>
Americas	\$ 189.6	\$ 217.7	\$ (28.1)	(12.9)%
EuroAsia	157.9	143.4	14.5	10.1
London Market	101.1	80.3	20.8	25.9
U.S. Insurance	129.0	126.8	2.2	1.7
<b>Total gross premiums written</b>	<b>\$ 577.6</b>	<b>\$ 568.2</b>	<b>\$ 9.4</b>	<b>1.7%</b>

Total reinsurance gross premiums written for the three months ended March 31, 2008 were \$385.1 million, compared to \$407.5 million for 2007, a decrease of 5.5%. Total insurance gross premiums written for the three months ended March 31, 2008, which include our U.S. Insurance division and the insurance business underwritten by our London Market division, were \$192.5 million, compared to \$160.7 million for 2007, an increase of 19.8%.

## Table of Contents

For the three months ended March 31, 2008, total reinsurance gross premiums written represented 66.7% (71.7% in 2007) of our business, while insurance represented the remaining 33.3% (28.3% in 2007).

*Americas.* Gross premiums written in the Americas division for the three months ended March 31, 2008 were \$189.6 million, a decrease of \$28.1 million, or 12.9%, compared to \$217.7 million for the three months ended March 31, 2007. These amounts represented 32.8% of our gross premiums written for the three months ended March 31, 2008 and 38.3% for the three months ended March 31, 2007. Gross premiums written across each geographic region of the Americas division were as follows:

- United States — Gross premiums written of \$141.3 million for the three months ended March 31, 2008 decreased \$30.4 million, or 17.7%, compared to \$171.7 million for the three months ended March 31, 2007. The decrease in gross premiums written was comprised of a decrease of \$37.3 million in casualty business, reflective of more competitive market conditions, offset by an increase in property and marine business.
- Latin America — Gross premiums written of \$37.8 million for the three months ended March 31, 2008 increased \$1.7 million, or 4.7%, compared to \$36.1 million for the three months ended March 31, 2007. The increase in gross premiums written was due to an increase in proportional business of \$1.4 million and an increase in excess of loss business of \$0.3 million.
- Canada — Gross premiums written of \$10.3 million for the three months ended March 31, 2008 increased \$0.4 million, or 4.0%, compared to \$9.9 million for the three months ended March 31, 2007.

*EuroAsia.* Gross premiums written in the EuroAsia division for the three months ended March 31, 2008 were \$157.9 million, an increase of \$14.5 million, or 10.1%, compared to \$143.4 million for the three months ended March 31, 2007. These amounts represented 27.4% of our gross premiums written for the three months ended March 31, 2008 and 25.3% in the corresponding period of 2007. Excluding the impact of movements in foreign exchange rates, actual premiums for the calendar year 2008 would have increased by \$0.3 million. The increase in premium volume was comprised of increases in property business of \$8.7 million, in motor of \$4.2 million, in liability of \$1.2 million and in all other lines of business of \$1.5 million, offset by decreases in accident and marine business of \$1.1 million.

*London Market.* Gross premiums written in the London Market division for the three months ended March 31, 2008 were \$101.1 million, an increase of \$20.8 million, or 25.9%, compared to \$80.3 million for the three months ended March 31, 2007. These amounts represented 17.5% of our gross premiums written for the three months ended March 31, 2008 and 14.1% for the three months ended March 31, 2007. Gross premiums written across each unit of the London Market division were as follows:

- London Branch — Gross premiums written of \$37.6 million for the three months ended March 31, 2008 decreased \$8.8 million, or 19.0%, compared to \$46.4 million for the three months ended March 31, 2007. Gross premiums written for property business, which represented 51.8% of the total gross premiums written of the London branch, decreased by \$5.6 million, or 22.3%, for the three months ended March 31, 2008 compared to the corresponding period of 2007. Marine and aviation business decreased by \$2.6 million, or 16.5%, for the three months ended March 31, 2008, compared to the corresponding period in 2007. Casualty business decreased by \$0.6 million, or 11.3%, for the three months ended March 31, 2008 compared to the corresponding period of 2007. The overall decrease is the result of share reductions and non-renewal of business not meeting our underwriting criteria.
- Newline/NICL — Gross premiums written of \$63.5 million for the three months ended March 31, 2008 increased \$29.6 million, or 87.3%, compared to \$33.9 million for the three months ended March 31, 2007. This increase was attributable to new medical malpractice and motor business.

*U.S. Insurance.* Gross premiums written in the U.S. Insurance division for the three months ended March 31, 2008 were \$129.0 million, an increase of \$2.2 million, or 1.7%, compared to \$126.8 million for the three months ended March 31, 2007. These amounts represented 22.3% of our gross premiums written for each of the three months.

## Table of Contents

periods ended March 31, 2008 and 2007. Lines of business which experienced the greatest change in gross premiums written during the first quarter of 2008 were as follows:

- Property and package gross premiums written for the three months ended March 31, 2008 were \$17.6 million, compared to \$8.2 million during the corresponding 2007 period. The increase was primarily due to crop program business which contributed \$11.2 million.
- Professional liability gross premiums written for the three months ended March 31, 2008 were \$33.7 million, compared to the corresponding 2007 period of \$31.8 million. The increase was primarily related to increased writings in the environmental liability program.
- Medical malpractice gross premiums written were \$34.8 million for the three months ended March 31, 2008, compared to \$37.5 million for the three months ended March 31, 2007. The decrease in this segment was principally the result of continued competitive market conditions.
- Our personal auto business, which primarily includes non-standard auto business written in California, decreased \$9.2 million, or 58.6%, to \$6.5 million for the three months ended March 31, 2008, compared to \$15.7 million for the prior year period. This was primarily due to the effect of the cancellation of several programs during the year ended December 31, 2007.
- Commercial auto increased \$2.5 million, to \$13.2 million, for the three months ended March 31, 2008, from \$10.7 million for the corresponding period in 2007. This increase resulted from the introduction of a new program covering the logging industry.

*Ceded Premiums Written.* Ceded premiums written for the three months ended March 31, 2008 increased by \$17.7 million, or 42.1%, to \$59.7 million (10.3% of gross premiums written) from \$42.0 million (7.4% of gross premiums written) for the three months ended March 31, 2007. The increase in ceded premiums written was primarily related to the London Market and U.S. Insurance divisions, as further discussed below.

*Net Premiums Written.* Net premiums written for the three months ended March 31, 2008 decreased by \$8.4 million, or 1.6%, to \$517.8 million from \$526.2 million for the three months ended March 31, 2007, as reflected in the following table (in millions):

Division	Three Months Ended March 31,		Change	
	2008	2007	\$	%
Americas	\$ 185.3	\$ 211.7	\$ (26.4)	(12.5)%
EuroAsia	150.8	134.8	16.0	11.9
London Market	84.1	70.9	13.2	18.6
U.S. Insurance	97.6	108.8	(11.2)	(10.3)
Total net premiums written	\$ 517.8	\$ 526.2	\$ (8.4)	(1.6)%

*Americas.* Net premiums written in the Americas division for the three months ended March 31, 2008 were \$185.3 million, compared to \$211.7 million for the 2007 period, a decrease of 12.5%. These amounts represented 35.8% of our net premiums written for the three months ended March 31, 2008 and 40.2% for the three months ended March 31, 2007. The net retention ratio, which represents net premiums written as a per cent of gross premiums written, was 97.7% for the three months ended March 31, 2008, compared to 97.2% for the three months ended March 31, 2007.

The decrease in net premiums written in the Americas Division is consistent with the 12.9% decrease in gross premiums written related to the decrease in casualty business, offset by the increase in property and marine business.

*EuroAsia.* Net premiums written in the EuroAsia division for the three months ended March 31, 2008 were \$150.8 million, compared to \$134.8 million for 2007, an increase of 11.9%. These amounts represented 29.1% of our net premiums written for the three months ended March 31, 2008 and 25.6% for the three months ended March 31, 2007. The net retention ratio for the three months ended March 31, 2008 was 95.5%, compared to 94.0% for the three months ended March 31, 2007.

## Table of Contents

The increase in net premiums written is comprised of the increase in gross premiums written of \$14.5 million and the reduction in ceded premiums written of \$1.5 million related to the decrease in deposit premiums related to our property catastrophe and facultative reinsurance protection.

*London Market.* Net premiums written in the London Market Division for the three months ended March 31, 2008 were \$84.1 million, compared to \$70.9 million for 2007, an increase of 18.6%. These amounts represented 16.3% of our net premiums written for the three months ended March 31, 2008 and 13.5% for the three months ended March 31, 2007. The net retention ratio was 83.2% for the three months ended March 31, 2008, compared to 88.3% for the three months ended March 31, 2007.

The increase in net premiums written consisted of an increase in gross premiums written of \$20.8 million, offset by an increase in ceded premiums written of \$7.6 million. The increase in ceded premiums written was primarily related to a change in the retention level of Newline Syndicate 1218's excess of loss contract and an increase in cessions associated with a new program incepting in the first quarter of 2008.

*U.S. Insurance.* Net premiums written in the U.S. Insurance division for the three months ended March 31, 2008 were \$97.6 million, compared to \$108.8 million for the three months ended March 31, 2007, a decrease of 10.3%. These amounts represented 18.8% of our net premiums written for the three months ended March 31, 2008 and 20.7% for the three months ended March 31, 2007. The net retention ratio was 75.7% for the three months ended March 31, 2008, compared to 85.8% for the three months ended March 31, 2007.

The decrease in net premiums written consisted of an increase in gross premiums written of \$2.2 million, offset by an increase in ceded premiums written of \$13.4 million. The increase in ceded premiums written was attributable to the final premium adjustment on the 2007 crop year program business and an increase in the quota share reinsurance on our medical malpractice class of business.

*Net Premiums Earned.* Net premiums earned for the three months ended March 31, 2008 decreased by \$27.5 million, or 5.1%, to \$511.4 million, from \$538.9 million for the three months ended March 31, 2007. Net premiums earned decreased by \$24.4 million, or 11.1%, in the Americas division, \$4.5 million, or 5.6%, in the London Market division and \$4.8 million, or 4.8%, in the U.S. Insurance division, offset by an increase of \$6.2 million, or 4.5%, in the EuroAsia division. We expect that the lower level of net premiums written for the remainder of 2008 will result in reduced net premiums earned in subsequent quarters.

*Losses and Loss Adjustment Expenses.* Net losses and LAE incurred decreased \$15.2 million, or 4.1%, to \$352.3 million for the three months ended March 31, 2008, from \$367.5 million for the three months ended March 31, 2007, as follows (in millions):

	<b>Three Months Ended March 31,</b>		<b>Change</b>	
	<b>2008</b>	<b>2007</b>	<b>\$</b>	<b>%</b>
Gross losses and LAE incurred	\$ 390.4	\$ 386.4	\$ 4.0	1.0%
Less: ceded losses and LAE incurred	38.1	18.9	19.2	101.6
Net losses and LAE incurred	\$ 352.3	\$ 367.5	\$ (15.2)	(4.1)%

The decrease in net losses and LAE incurred was principally related to a decline in net earned premium of \$27.5 million, to \$511.4 million for the three months ended March 31, 2008, from \$538.9 million for the three months ended March 31, 2007. Losses and LAE for the three months ended March 31, 2008 included a decrease in prior period losses of \$2.3 million, principally attributable to decreased loss estimates due to loss emergence lower than expectations in the period on business written in the London Market and U.S. Insurance divisions. This decrease was partially offset by increased loss estimates due to loss emergence greater than expectations in the period on business written in the Americas and EuroAsia divisions. Losses and LAE for the three months ended March 31, 2007 included an increase in prior period losses of \$2.4 million principally due to loss emergence greater than expectations in the period on auto, general liability and aviation business written in the Americas division. This increase was partially offset by reduced loss estimates due to loss emergence lower than expectations in the period on business written in the London Market and EuroAsia divisions.

## Table of Contents

Ceded losses and LAE incurred for the three months ended March 31, 2008 increased by \$19.2 million, or 101.6%, to \$38.1 million, from \$18.9 million for the three months ended March 31, 2007. This increase is principally attributable to increased loss cessions on casualty excess of loss contracts.

The loss and LAE ratio for the three months ended March 31, 2008 and 2007 and the percentage point change for each of our divisions and in total are as follows:

Division	Three Months Ended March 31,		Percentage Point Change
	2008	2007	
Americas	66.9%	67.1%	(0.2)
EuroAsia	77.5	73.7	3.8
London Market	62.8	63.9	(1.1)
U.S. Insurance	64.9	66.6	(1.7)
Total losses and LAE ratio	68.9%	68.2%	0.7

The following tables reflect total losses and LAE as reported for each division and include the impact of catastrophe losses and prior period reserve development, expressed as a percentage of net premiums earned ("NPE"), for the three months ended March 31, 2008 and 2007 (in millions):

### Three Months Ended March 31, 2008

## [Table of Contents](#)

Americas Division — Losses and LAE decreased \$16.7 million, or 11.3%, to \$131.4 million for the three months ended March 31, 2008, from \$148.1 million for the three months ended March 31, 2007. This resulted in a loss and LAE ratio of 66.9% for the three months ended March 31, 2008, compared to 67.1% for the three months ended March 31, 2007. This decrease in losses and LAE was principally due to a decline in net earned premium of \$24.4 million, to \$196.4 million for the three months ended March 31, 2008, from \$220.8 million for the three months ended March 31, 2007, and a decrease in prior period losses of \$10.7 million, to \$4.4 million for the three months ended March 31, 2008, from \$15.1 million for the three months ended March 31, 2007. Losses and LAE for the three months ended March 31, 2008 included an increase in prior period losses of \$4.4 million, principally attributable to increased asbestos loss estimates due to loss emergence greater than expectations in the period. Losses and LAE for the three months ended March 31, 2007 included an increase in prior period losses of \$15.1 million, principally attributable to loss emergence greater than expectations in the period on auto, general liability and aviation lines of business.

EuroAsia Division — Losses and LAE increased \$10.0 million, or 9.9%, to \$111.0 million for the three months ended March 31, 2008, from \$101.0 million for the three months ended March 31, 2007. This resulted in a loss and LAE ratio of 77.5% for the three months ended March 31, 2008, compared to 73.7% for the three months ended March 31, 2007. This increase in losses and LAE was principally due to an increase in prior period losses of \$8.1 million, to an increase of \$4.7 million for the three months ended March 31, 2008, from a decrease of \$3.4 million for the three months ended March 31, 2007, and an increase in net earned premium of \$6.2 million, to \$143.3 million for the three months ended March 31, 2008, from \$137.1 million for the three months ended March 31, 2007. Losses and LAE for the three months ended March 31, 2008 included an increase in prior period losses of \$4.7 million, principally attributable to loss emergence greater than expectations in the period on non-catastrophe property business. Losses and LAE for the three months ended March 31, 2007 included a decrease in prior period losses of \$3.4 million, principally due to favorable loss emergence on aviation and marine lines of business in the period, partially offset by unfavorable loss emergence on motor and liability business.

London Market Division — Losses and LAE decreased \$3.7 million, or 7.1%, to \$48.2 million for the three months ended March 31, 2008, from \$51.9 million for the three months ended March 31, 2007. This resulted in a loss and LAE ratio of 62.8% for the three months ended March 31, 2008, compared to 63.9% for the three months ended March 31, 2007. This decrease in losses and LAE was principally due to a reduction in current year catastrophe losses of \$9.9 million, to \$0.9 million for the three months ended March 31, 2008, from \$10.8 million for the three months ended March 31, 2007. For the three months ended March 31, 2008, losses and LAE included a decrease in prior period losses of \$8.4 million, principally due to favorable loss emergence on marine, satellite and professional liability business in the period. For the three months ended March 31, 2007, losses and LAE included a decrease in prior period losses of \$8.6 million, principally due to favorable loss emergence on satellite, accident, and aviation business in the period.

U.S. Insurance Division — Losses and LAE decreased \$4.8 million, or 7.2%, to \$61.7 million for the three months ended March 31, 2008, from \$66.5 million for the three months ended March 31, 2007. This resulted in a loss and LAE ratio of 64.9% for the three months ended March 31, 2008, compared to 66.6% for the three months ended March 31, 2007. This decrease in losses and LAE was principally related to a decrease in prior period losses of \$2.3 million, to a decrease of \$3.0 million for the three months ended March 31, 2008, from a decrease of \$0.7 million for the three months ended March 31, 2007, and a decrease in net earned premium of \$4.8 million, to \$95.1 million for the three months ended March 31, 2008, from \$99.9 million for the three months ended March 31, 2007. For the three months ended March 31, 2008, losses and LAE included a decrease in prior period losses of \$3.0 million, principally due to favorable loss emergence on property and professional liability business in the period, partially offset by loss emergence greater than expectations in the period on auto business. For the three months ended March 31, 2007, losses and LAE included a decrease in prior period losses of \$0.7 million, principally due to favorable loss emergence on auto business, partially offset by unfavorable loss emergence on general liability business.

*Acquisition Costs.* Acquisition costs for the three months ended March 31, 2008 were \$108.1 million, an increase of \$0.3 million, or 0.3%, compared to \$107.8 million for the three months ended March 31, 2007. The resulting acquisition expense ratio, expressed as a percentage of net premiums earned, was 21.1% for the three months ended March 31, 2008, compared to 20.0% for the three months ended March 31, 2007, an increase of 1.1

## [Table of Contents](#)

points. The Americas and U.S. Insurance divisions' acquisition ratios increased by 1.9 points and 4.3 points, respectively. The EuroAsia division's and London Market's acquisition expense ratios decreased by 1.4 points and 0.2 points, respectively, for the three months ended March 31, 2008 compared to the corresponding period in 2007.

*Other Underwriting Expenses.* Other underwriting expenses for the three months ended March 31, 2008 were \$42.8 million, compared to \$43.6 million for the three months ended March 31, 2007. The other underwriting expense ratio, expressed as a percentage of net premiums earned, was 8.4% for the three months ended March 31, 2008, compared to 8.1% for the corresponding period in 2007. The increase in other underwriting expense ratio was attributable to a decrease in net premiums earned while the underwriting expense remained relatively unchanged.

The following table reflects the acquisition and other underwriting expenses, expressed as a percentage of net premiums earned, for the three months ended March 31, 2008 and 2007 for each of our divisions:

Division	Three Months Ended March 31,		Percentage Point Change
	2008	2007	
Americas	33.0%	30.3%	2.7
EuroAsia	25.8	27.1	(1.3)
London Market	27.0	26.5	0.5
U.S. Insurance	29.9	25.9	4.0
Total acquisition costs and other underwriting expense ratio	29.5%	28.1%	1.4

Our combined ratio was 98.4% for the three months ended March 31, 2008, compared to 96.3% for the three months ended March 31, 2007. The following table reflects the combined ratio for the three months ended March 31, 2008 and 2007 for each of our divisions:

Division	Three Months Ended March 31,		Percentage Point Change
	2008	2007	
Americas	99.9%	97.4%	2.5
EuroAsia	103.3	100.8	2.5
London Market	89.8	90.4	(0.6)
U.S. Insurance	94.8	92.5	2.3
Total combined ratio	98.4%	96.3%	2.1

### *Investment Results*

*Net Investment Income.* Net investment income for the three months ended March 31, 2008 decreased by \$8.4 million, or 10.3%, to \$73.1 million, from \$81.5 million for the three months ended March 31, 2007. Net investment income was comprised of gross investment income of \$83.8 million less investment expenses of \$10.7 million for the three months ended March 31, 2008, compared to gross investment income of \$91.7 million less investment expenses of \$10.2 million for the three months ended March 31, 2007. The decrease in net investment income for the three months ended March 31, 2008 was primarily attributable to the following:

- an increase of \$803.6 million, or 11.2%, in average invested assets for the three months ended March 31, 2008, compared to the corresponding period in 2007;
- a decrease of \$3.5 million in net investment income from equity investments for the three months ended March 31, 2008 compared to the corresponding period in 2007. Net income of common stocks, at equity, decreased by \$5.8 million, offset by an increase in dividends on common stocks of \$2.3 million;
- a decrease in investment income from short-term investments and cash of \$6.7 million or 26.9% for the three months ended March 31, 2008, compared to the corresponding period in 2007, which is representative of a

## [Table of Contents](#)

shift from shorter term to longer term investments and a decrease in short-term interest rates over the same period; and

- a decrease in income from other invested assets of \$1.6 million for the three months ended March 31, 2008 compared to the corresponding period in 2007, which is primarily comprised of income from hedge funds and private equity funds accounted for under the equity method; offset by:
- an increase in investment income from fixed income securities of \$3.9 million, or 8.8%, for the three months ended March 31, 2008, compared to the corresponding period in 2007;

Our total effective annualized yield on average invested assets, net of expense but before the impact of interest expense from funds held balances was 3.8% and 4.7% for the three months ended March 31, 2008 and 2007, respectively.

Interest expense on funds held of \$1.9 million for the three months ended March 31, 2008, which primarily relates to our Whole Account Excess of Loss Agreements and is included in investment expenses, represented a decrease of \$0.2 million, or 9.5%, from \$2.1 million for the three months ended March 31, 2007. The decrease was primarily attributable to ceded paid losses reducing the funds held balance.

*Net Realized Investment Gains.* Net realized investment gains of \$323.0 million for the three months ended March 31, 2008 increased by \$274.9 million, from \$48.1 million for the three months ended March 31, 2007. The increase in net realized investment gains was principally due to the following:

- an increase in net realized investment gains on derivative securities of \$240.6 million, primarily attributable to the net change in fair value of our credit default swaps and total return swaps on indexes, caused by widening credit spreads and declining equity indexes;
- higher net realized investment gains on fixed income securities of \$33.8 million;
- an increase in foreign exchange realized investment gains on short-term investments of \$20.6 million resulting from the weakening of the U.S. dollar versus foreign currencies; and
- an increase in net mark-to-market realized investment gains of \$10.0 million on short positions; offset by:
- lower net realized investment gains on equity securities of \$31.5 million, which include other-than-temporary write-downs of equity securities of \$35.4 million during the three months ended March 31, 2008.

During the three months ended March 31, 2008, net realized investment gains were reduced by other-than-temporary impairment losses in the amount of \$40.9 million relating to fixed income securities of \$5.0 million, equity securities of \$35.4 million and preferred stock of \$0.5 million. There were no other-than-temporary write-downs of investments during the three months ended March 31, 2007. Other-than-temporary impairments reflect situations where the fair value was below the cost of the security, and the ability of the security to recover its value could not be reasonably determined.

### ***Other Results, Principally Holding Company and Income Taxes***

*Other Expenses, Net.* Other expenses, net, for the three months ended March 31, 2008 and 2007 were \$11.1 million and \$5.5 million, respectively. The other expense is principally comprised of foreign currency exchange gains and losses and the operating expenses of our holding company, including audit related fees, corporate-related legal fees, consulting fees and compensation expense. The increase of \$5.6 million for the three months ended March 31, 2008 compared to 2007 was primarily comprised of: (i) a decrease of \$0.5 million in compensation expense, (ii) a decrease of \$0.5 million relating to charitable contributions, (iii) a decrease in legal fees of \$0.8 million, and (iv) a decrease in audit fees of \$0.6 million; offset by: (v) an increase in foreign exchange related adjustments of \$7.8 million, primarily related to the strengthening of the Euro during the three months ended March 31, 2008.

*Interest Expense.* We incurred interest expense related to our debt obligations of \$9.0 million and \$9.5 million for the three months ended March 31, 2008 and 2007, respectively. The lower amount of interest

## [Table of Contents](#)

expense in 2008 primarily resulted from the decrease in interest rates on our Series A, B and C floating rate Senior Notes.

*Federal and Foreign Income Tax Provision.* Our federal and foreign income tax provision for the three months ended March 31, 2008 increased by \$87.4 million, to \$133.3 million, compared to \$45.9 million for the three months ended March 31, 2007, resulting from increased pre-tax income. Our effective tax rates were 34.7% and 34.1% for the three months ended March 31, 2008 and 2007, respectively.

*Preferred Dividends.* We recorded preferred dividends related to our Series A and Series B non-cumulative perpetual preferred shares of \$1.9 million and \$2.1 million for the three months ended March 31, 2008 and 2007, respectively.

### **Liquidity and Capital Resources**

Our shareholders' equity increased by \$158.1 million, or 6.0%, to \$2,812.8 million as of March 31, 2008, from \$2,654.7 million as of December 31, 2007. The net increase as of March 31, 2008 compared to December 31, 2007 was primarily attributable to net income of \$250.9 million. Offsetting these increases were dividends on preferred and common shares of \$6.2 million and the repurchase of \$77.5 million of our common shares, under our repurchase program. Our book value per common share was \$40.32 as of March 31, 2008, representing an increase of \$3.54, or 9.6%, from our book value per common share of \$36.78 as of December 31, 2007.

The following table reconciles total shareholders' equity, a GAAP financial measure, to common shareholders' equity, a non-GAAP financial measure, which is used in our book value per common share calculation. We believe this presentation may be useful to investors who utilize common shareholders' equity in their return on equity calculation.

	<u>As of March 31, 2008</u>	<u>As of December 31, 2007</u>
	(In millions, except share and per share amounts)	
Total shareholders' equity	\$ 2,812.8	\$ 2,654.7
Less: shareholders' equity related to preferred stock	97.5	97.5
Total common shareholders' equity	\$ 2,715.3	\$ 2,557.2
Common shares outstanding	67,338,246	69,521,494
Book value per common share	\$ 40.32	\$ 36.78

Odyssey Re Holdings Corp. is a holding company that does not have any significant operations or assets other than its ownership of Odyssey America, and its principal sources of funds are cash dividends and other permitted payments from its operating subsidiaries, primarily Odyssey America. If our subsidiaries are unable to make payments to the holding company, or are able to pay only limited amounts, we may be unable to pay dividends on our preferred or common shares or make payments on our indebtedness. The payment of dividends by our operating subsidiaries is subject to restrictions set forth in the insurance laws and regulations of Connecticut, Delaware, New York and the United Kingdom. The holding company received dividends from Odyssey America of \$160.0 million during 2008 and \$155.0 million for the year ended December 31, 2007. During 2008, Odyssey America can pay dividends to the holding company of \$292.3 million without prior regulatory approval. During the second quarter of 2008, Odyssey America received the approval of the Connecticut Insurance Department to pay an extraordinary dividend of \$150.0 million to the holding company. The dividend will be used for general corporate purposes including the continued repurchase of our common stock pursuant to our publicly announced share repurchase plan. Holding company cash, cash equivalents and short-term investments equaled \$38.0 million as of March 31, 2008, as compared to \$56.5 million as of December 31, 2007.

Odyssey America's liquidity requirements are principally met by cash flows from operating activities, which principally result from collections of premiums, reinsurance recoverables and investment income, net of paid losses, acquisition costs, income taxes and underwriting and investment expenses. We seek to maintain sufficient liquidity to satisfy the timing of projected claim payments and operating expenses. The estimate, timing and

## [Table of Contents](#)

ultimate amount of actual claim payments is inherently uncertain and will vary based on many factors including the frequency and severity of losses across various lines of business. Claim payments can accelerate due to a variety of factors, including losses stemming from catastrophic events, which are typically paid out in a short period of time, legal settlements or emerging claim issues. We estimate claim payments, net of associated reinsurance recoveries, of approximately \$1.1 billion during 2008. The timing and certainty of associated reinsurance collections which may be due to us can add uncertainty to our liquidity position to the extent amounts are not received on a timely basis. As of March 31, 2008, our operating subsidiaries maintained cash and cash equivalents of \$802.9 million, which is readily available for expected claim payments. In addition, our liquidity is enhanced through the collection of premiums on new business written through the year. We believe our cash resources, together with readily marketable securities, are sufficient to satisfy expected payment obligations, including any unexpected acceleration in claim payments or timing differences in collecting reinsurance recoverables.

Although the obligations of our reinsurers to make payments to us are based on specific contract provisions, these amounts only become recoverable when we make a payment of the associated loss amount, which may be several years, or in some cases decades, after the actual loss occurred. Reinsurance recoverables on unpaid losses, which represent 90.1% of our total reinsurance recoverables as of March 31, 2008, will not be due for collection until some time in the future, and over this period of time, economic conditions and the operational performance of a particular reinsurer may negatively impact its ability to meet its future obligations to us. We manage our exposure by entering into reinsurance transactions with companies that have a strong capital position and a favorable long term financial profile.

Our total reinsurance recoverable on paid losses as of March 31, 2008, net of the reserve for uncollectible reinsurance, was \$69.4 million. The top ten reinsurers measured on total reinsurance recoverables represented \$41.0 million, or 59.1% of the total paid loss recoverable, of which \$7.4 million is fully collateralized and the remaining \$33.6 million is with highly rated companies. The remaining \$28.4 million recoverable on paid losses is with numerous companies, and no single company has a balance greater than \$2.9 million net of the reserve on uncollectible reinsurance.

Cash provided by operations was \$107.3 million for the three months ended March 31, 2008, compared to \$101.9 million for the three months ended March 31, 2007. This reflects an increase in cash provided by operations of \$5.4 million, or 5.3%, over the corresponding period of 2007.

Total investments and cash amounted to \$8.1 billion as of March 31, 2008, an increase of \$334.2 million compared to December 31, 2007. Our average invested assets were \$7.9 billion for the three months ended March 31, 2008, as compared to \$7.1 billion for the three months ended March 31, 2007. It is anticipated that our cash and cash equivalents will continue to be reinvested on a basis consistent with our long-term, value-oriented investment philosophy. Cash, cash equivalents and short-term investments, excluding cash and cash equivalents held as collateral, represented 26.9% and 18.5% of our total investments and cash, excluding cash and cash equivalents held as collateral, as of March 31, 2008 and December 31, 2007, respectively. Total fixed income securities were \$4.3 billion as of March 31, 2008, compared to \$4.6 billion as of December 31, 2007. As of March 31, 2008, 91.8% of our fixed income portfolio was rated "AAA", with a minimal amount of securities rated below investment grade. The duration of our investment portfolio, including cash and cash equivalents, was 5.7 years, which exceeds the duration of our liabilities. We believe this difference is mitigated by the significant amount of cash and cash equivalents maintained within our portfolio.

Total investments and cash exclude amounts receivable for securities sold and amounts payable for securities purchased, representing the timing between the trade date and settlement date of securities sold and purchased. As of March 31, 2008 and December 31, 2007, we had receivables for securities sold of \$9.1 million and \$23.6 million, respectively, which are included in other assets, and payables for securities purchased of \$23.6 million and \$27.1 million, respectively, which are included in other liabilities.

On November 28, 2006, we completed the private sale of \$40.0 million aggregate principal amount of floating rate senior debentures, series C (the "Series C Notes"), due on December 15, 2021. Interest on the Series C Notes accrues at a rate per annum equal to the three-month London Interbank Offer Rate ("LIBOR"), reset quarterly, plus 2.50%, and is payable quarterly in arrears on March 15, June 15, September 15 and December 15 of each year. We have the option to redeem the Series C Notes at par, plus accrued and unpaid interest, in whole or in part on any interest payment date on or after December 15, 2011. For the three months ended March 31, 2008 and 2007, the average annual interest rate on the Series C Notes was 7.10% and 7.87%, respectively.

## Table of Contents

On February 22, 2006, we issued \$100.0 million aggregate principal amount of floating rate senior debentures, pursuant to a private placement. The net proceeds from the offering, after fees and expenses, were \$99.3 million. The debentures were sold in two tranches, \$50.0 million of series A due March 15, 2021 (the “Series A Notes”), and \$50.0 million of series B due March 15, 2016 (the “Series B Notes”). Interest on each series of debentures is due quarterly in arrears on March 15, June 15, September 15 and December 15 of each year. The interest rate on each series of debentures is equal to the three-month LIBOR, reset quarterly, plus 2.20%. The Series A Notes are callable by us in 2011 at their par value, plus accrued and unpaid interest, and the Series B Notes are callable by us in 2009 at their par value, plus accrued and unpaid interest. For the three months ended March 31, 2008 and 2007, the average annual interest rate on each series of notes was 6.80% and 7.56%, respectively.

During the second quarter of 2005, we issued \$125.0 million aggregate principal amount of senior notes due May 1, 2015. The issue was sold at a discount of \$0.8 million, which is being amortized over the life of the notes. Interest accrues on the senior notes at a fixed rate of 6.875% per annum, which is due semi-annually on May 1 and November 1.

During the fourth quarter of 2003, we issued \$225.0 million aggregate principal amount of senior notes due November 1, 2013. The issue was sold at a discount of \$0.4 million, which is being amortized over the life of the notes. Interest accrues on the senior notes at a fixed rate of 7.65% per annum, which is due semi-annually on May 1 and November 1.

In June 2002, we issued \$110.0 million aggregate principal amount of convertible senior debentures due 2022 (the “Convertible Notes”). In accordance with the indenture under which the Convertible Notes were issued, the Convertible Notes became convertible, at the option of the holders, on August 14, 2006. As of March 31, 2007, 1.9 million shares of our common stock were issued to the Convertible Notes holders who elected to convert their Convertible Notes, resulting in a decrease to Convertible Notes and a corresponding increase to shareholders’ equity of \$40.1 million. In March 2007, we announced that we had called for the redemption of the remaining \$22.5 million principal value of our outstanding Convertible Notes. At the close of business on April 30, 2007, all holders of the Convertible Notes had exercised their rights of conversion with respect to the Convertible Notes. Accordingly, on May 1, 2007, we issued 1,056,107 shares of our common stock related to the final conversion of \$22.5 million principal value of the Convertible Notes, and no Convertible Notes remained outstanding as of such date.

On July 13, 2007, we entered into a \$200.0 million credit facility (the “Credit Agreement”) with Wachovia Bank National Association (“Wachovia”), KeyBank National Association and a syndicate of lenders. The Credit Agreement provides for a five-year credit facility of \$200.0 million, \$100.0 million of which is available for direct, unsecured borrowings by us, and all of which is available for the issuance of secured letters of credit. The Credit Agreement contains an option that permits us to request an increase in the aggregate amount of the facility by an amount up to \$100.0 million, to a maximum facility size of \$300.0 million. Following such a request, each lender has the right, but not the obligation, to commit to all or a portion of the proposed increase. The Credit Agreement is for working capital and other corporate purposes, including the issuance of letters of credit to support our insurance and reinsurance business. The Credit Agreement replaced our three-year, \$150.0 million credit facility entered into as of September 23, 2005, which has been terminated, and the obligations thereunder have been satisfied.

As of March 31, 2008, there was \$56.5 million outstanding under the Credit Agreement, all of which was in support of letters of credit. Loans under the Credit Agreement bear interest at a fluctuating rate per annum equal to the higher of (a) the federal funds rate plus 0.5%, and (b) Wachovia’s publicly announced prime rate. Alternatively, at our option, loans bear interest at the LIBOR, which is the offered rate that appears on the page of the Telerate screen that displays an average British Bankers Association Interest Settlement Rate for deposits in dollars, plus 0.55%, which additional percentage may be adjusted if our debt rating changes.

On June 15, 2007, our Board of Directors authorized a share repurchase program. Under the initial authorization, effective as of such date, we were authorized to repurchase shares of our common stock on the open market from time to time through June 15, 2009, up to an aggregate purchase price of \$200.0 million. On March 18, 2008, we announced that our Board of Directors had increased the share repurchase program authorization by an additional \$200.0 million, to a total repurchase authorization of \$400.0 million. Shares repurchased under the program are retired. Depending on market conditions and other factors, these repurchases may be commenced or suspended at any time, or from time to

## Table of Contents

time, without prior notice. For the three months ended March 31, 2008, we repurchased and retired 2,114,500 shares of our common stock, at a cost of \$77.5 million, an average repurchase price of \$36.64 per share.

From inception of the program through May 5, 2008, we repurchased and retired 5,825,489 shares of our common stock at a total cost of \$212.0 million, of which 1,074,000 shares were purchased from April 1, 2008 through May 5, 2008, at a cost of \$40.0 million.

We participate in Lloyd's through our 100% ownership of Newline, through which we provide 100% of the capacity for Newline Syndicate 1218 ("Syndicate 1218"). The results of Syndicate 1218 are consolidated in our financial statements. In support of Syndicate 1218's capacity at Lloyd's, Odyssey America has pledged U.S. Treasury Notes and cash with a fair value of \$207.0 million as of March 31, 2008 in a deposit trust account in favor of the Society and Council of Lloyd's. These securities may be substituted with other securities at our discretion, subject to approval by Lloyd's. The securities are carried at fair value and are included in investments and cash in our consolidated balance sheets. Interest earned on the securities is included in investment income. The pledge of assets in support of Syndicate 1218 provides us with the ability to participate in writing business through Lloyd's, which remains an important part of our business. The pledged assets effectively secure the contingent obligations of Syndicate 1218 should it not meet its obligations. Odyssey America's contingent liability to the Society and Council of Lloyd's is limited to the aggregate amount of the pledged assets. We have the ability to remove funds at Lloyd's annually, subject to certain minimum amounts required to support outstanding liabilities as determined under risk-based capital models and approved by Lloyd's. The funds used to support outstanding liabilities are adjusted annually and our obligation to support these liabilities will continue until they are settled or the liabilities are reinsured by a third party approved by Lloyd's. We expect to continue to actively operate Syndicate 1218 and support its requirements at Lloyd's. We believe that Syndicate 1218 maintains sufficient liquidity and financial resources to support its ultimate liabilities and we do not anticipate that the pledged assets will be utilized.

During the second quarter of 2004, Odyssey America pledged U.S. Treasury Notes with a par value of \$162.0 million ("the pledged assets"), or approximately £110.0 million equivalent, to the Society and Council of Lloyd's on behalf of Advent Capital (Holdings) PLC ("Advent") to support Advent's underwriting activities for the 2001 to 2005 underwriting years of account. Advent is 44.5% owned by Fairfax and its affiliates, which includes 8.1% held by us. nSpire Re had previously pledged assets at Lloyd's on behalf of Advent pursuant to a November 2000 agreement with Advent. Advent is responsible for the payment of any losses to support its underwriting activities and the capital resources of Advent, including its funds deposited at Lloyd's, are first available to support any losses prior to a draw down of Odyssey America's pledged assets. In consideration of Odyssey America pledging the assets, nSpire Re agreed to pay Odyssey America a fee equal to 2.0% per annum of the pledged assets, which we consider to be representative of commercial market terms. The pledged assets continue to be owned by Odyssey America, and Odyssey America receives any investment income thereon. The securities are carried at fair value and are included in investments and cash in our consolidated balance sheets. Interest earned on the securities is included in investment income. As additional consideration for, and further protection of, the pledged assets, nSpire Re has provided Odyssey America with indemnification in the event of a draw down on the pledged assets. Odyssey America retains the right to withdraw the pledged assets at any time upon 180 days advance written notice to nSpire Re. nSpire Re retains the obligation to pledge assets on behalf of Advent. In any event, the placement of funds at Lloyd's will automatically terminate effective no later than December 31, 2008 and any remaining pledged assets will revert to Odyssey America at that time. The pledge of assets is not considered material to our consolidated financial position. In January 2006, September 2006 and June 2007, Odyssey America received assets with par values of \$48.6 million, \$10.7 million and \$14.6 million, respectively, in each case representing a permanent reduction and unconditional release of such amount, prior to the stated termination date, following the deposit by Advent of such amount in new funds at Lloyd's. Following these returns of assets, and as of March 31, 2008, Odyssey America continues to have a par value of \$88.1 million, or approximately £44.3 million equivalent, pledged to Lloyd's in support of Advent and will continue to receive a fee for these pledged assets. The fair value of the pledged assets as of March 31, 2008 is \$115.9 million, or approximately £58.3 million equivalent. We believe that the financial resources of Advent provide adequate protection to support its liabilities in the ordinary course of business.

## Table of Contents

On February 21, 2008, our Board of Directors declared a quarterly cash dividend of \$0.0625 per common share. The dividend was paid on March 28, 2008 to all common shareholders of record as of March 14, 2008, resulting in an aggregate dividend payment of \$4.3 million.

On February 21, 2008, our Board of Directors declared quarterly dividends of \$0.5078125 per share on our 8.125% non-cumulative Series A preferred shares and \$0.4485156 (equal to 7.176% per annum) per share on our floating rate Series B preferred shares. Total dividends of \$1.9 million were paid on April 20, 2008 to Series A and Series B preferred shareholders of record on March 31, 2008.

### **Financial Strength and Credit Ratings**

The Company and its subsidiaries are assigned financial strength (insurance) and credit ratings from internationally recognized rating agencies, which include A.M. Best Company, Inc., Standard & Poor's Insurance Rating Services and Moody's Investors Service. Financial strength ratings represent the opinions of the rating agencies of the financial strength of a company and its capacity to meet the obligations of insurance and reinsurance contracts. The rating agencies consider many factors in determining the financial strength rating of an insurance or reinsurance company, including the relative level of statutory surplus necessary to support the business operations of the company.

These ratings are used by insurers, reinsurers and intermediaries as an important means of assessing the financial strength and quality of reinsurers and insurers. The financial strength ratings of our principal operating subsidiaries are: A.M. Best: "A" (Excellent), Standard & Poor's: "A-" (Strong), and Moody's: "A3" (Good).

Our senior unsecured debt is currently rated "BBB-" by Standard & Poor's, "Baa3" by Moody's and "bbb" by A.M. Best. Our Series A and Series B preferred shares are currently rated "BB" by Standard & Poor's, "Ba2" by Moody's and "bb+" by A.M. Best.

### **Accounting Pronouncements**

Statement of Financial Accounting Standards ("SFAS") 157, "Fair Value Measurements", defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. In February 2008, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position FAS 157-2 ("FSP FAS 157-2"), "Effective Date of FASB Statement No. 157," which permits a one-year deferral of the application of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually).

We adopted SFAS 157 and FSP FAS 157-2 effective January 1, 2008. Accordingly, the provisions of SFAS 157 were not applied to non-financial assets (goodwill and intangible assets) held by us and measured annually for impairment testing purposes only. The adoption of SFAS 157, for all other assets and liabilities held by us, did not have a material effect on our results of operations, financial position or liquidity. We will adopt SFAS 157 for non-financial assets and non-financial liabilities on January 1, 2009 and do not expect the provisions to have a material effect on our results of operations, financial position or liquidity.

On January 1, 2008, we adopted SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115," which provides a fair value option ("FVO") to measure many financial instruments and certain other assets and liabilities at fair value on an instrument-by-instrument basis. We elected the FVO for one investment that had previously been recorded under the equity method of accounting. On January 1, 2008, we discontinued applying the equity method of accounting for this investment and, in accordance with SFAS 159, carry the investment at fair value with changes in fair value recognized as realized gains or losses in our consolidated statements of operations. As a result of adopting the FVO for this investment, we recorded a cumulative adjustment of \$1.5 million to reclassify foreign currency unrealized gains, net of tax, which had been included in accumulated other comprehensive income, to retained earnings as of January 1, 2008. In addition, SFAS 159 amended SFAS 95, "Statement of Cash Flows," to allow cash payments and receipts related to trading securities to be classified according to the investment intent. As a result of the amendment to SFAS 95, as of January 1, 2008, we have classified our trading activity within the investing activities section of our consolidated statements of cash flows due to the investment nature of the transactions.

## Table of Contents

In September 2006, the FASB issued SFAS 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans — an amendment of SFAS 87, 88, 106, and 132(R)." In accordance with SFAS 158, as of December 31, 2006, we recognized the underfunded status of our pension and postretirement benefit plans, as a liability on our consolidated balance sheet, and recognize the changes in the funded status, in the year in which the changes occur, through other comprehensive income. SFAS 158 also requires employers to measure plan assets and liabilities as of the date of their financial statements. Accordingly, the measurement date for two of our benefit plans has been changed from October 1 to December 31. We have elected to apply the "fifteen-month" approach for these two benefit plans, to measure plan assets and liabilities as of the plans' current measurement date, October 1, 2007, for a fifteen-month period through December 31, 2008. On January 1, 2008, we recorded a transition adjustment of \$1.2 million, net of tax, decreasing retained earnings, and \$0.1 million, net of tax, increasing accumulated other comprehensive income, related to the change in the measurement date for the two benefit plans. SFAS 158 does not require retrospective application.

In June 2007, the American Institute of Certified Public Accountants ("AICPA") issued Statement of Position 07-1 ("SOP 07-1"), "Clarification of the Scope of the Audit and Accounting Guide for Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investments Companies," to assist entities in determining if the guidance of the AICPA Audit and Accounting Guide for Investment Companies should be followed and whether the industry accounting should be utilized by parent companies and other investees that exercise significant influence over the investment company. SOP 07-1 requires extensive disclosures, if the entity falls under the definition of an investment company, or the entity is a parent or equity method investor that owns an investment that falls within the scope of investment company accounting. We anticipate that the adoption of SOP 07-1 will not have a material effect on our consolidated financial position or results of operations. SOP 07-1 will require us to make additional disclosures regarding certain investments. In February 2008, the FASB issued FASB Staff Position ("FSP") SOP 07-1-1, "Effective Date of AICPA Statement of Position 07-1," which indefinitely delayed the effective date of SOP 07-1 until further review can be performed by the FASB to determine the proper application of this pronouncement.

In December 2007, the FASB issued SFAS 141(R), "Business Combinations," to replace SFAS 141, "Business Combinations." While several items from SFAS 141 were retained, including the acquisition method of accounting and the recognition of intangible assets separately from goodwill, SFAS 141(R) broadens its scope and establishes a definition of the acquirer and the acquisition date. SFAS 141(R) should be applied on a prospective basis in the first annual reporting period beginning on or after December 15, 2008. Earlier application is prohibited.

In December 2007, the FASB issued SFAS 160, "Non-controlling Interests in Consolidated Financial Statements," which amends Accounting Research Bulletin 51, "Consolidated Financial Statements," to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies the definition of a non-controlling interest and the proper accounting for that entity. SFAS 160 is effective for fiscal years beginning on or after December 15, 2008. Earlier adoption is prohibited. We are evaluating the impact of the adoption of SFAS 160, if any, on our consolidated financial statements.

In March 2008, the FASB issued SFAS 161, "Disclosures About Derivative Instruments and Hedging Activities," which requires additional disclosures for derivative and hedging activities. While earlier application is encouraged, SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. SFAS 161 does not require, but encourages comparative application to prior periods at the initial adoption date. We are currently evaluating the impact of the adoption of SFAS 161, if any, on our disclosures within our financial statements.

### **Off-Balance Sheet Arrangements**

We have off-balance sheet arrangements, including certain arrangements with affiliated companies, that have financial implications. A description of these arrangements is provided in Note 10 to our consolidated financial statements included in this Form 10-Q.

### **Forward Looking Statements**

We have included in this Form 10-Q filing, and from time to time our management may make, written or oral statements that may include forward-looking statements that reflect our current views with respect to future events and

## Table of Contents

financial performance. These forward-looking statements relate to, among other things, our plans and objectives for future operations. These forward-looking statements are subject to uncertainties and other factors that could cause actual results to differ materially from such statements. These uncertainties and other factors include, but are not limited to:

- a reduction in net income if our loss reserves are insufficient;
- the occurrence of catastrophic events with a frequency or severity exceeding our estimates;
- the lowering or loss of one of our financial or claims-paying ratings, including those of our subsidiaries;
- an inability to realize our investment objectives;
- the risk that current governmental investigations or related proceedings involving the Company might impact us adversely;
- the risk that ongoing regulatory developments will disrupt our business or mandate changes in industry practices in a fashion that increases our costs or requires us to alter aspects of the way we do business;
- a decrease in the level of demand for our reinsurance or insurance business, or increased competition in the industry;
- emerging claim and coverage issues, which could expand our obligations beyond the amount we intend to underwrite;
- a change in the requirements of one or more of our current or potential customers relating to counterparty financial strength, claims-paying ratings, or collateral requirements;
- actions of our competitors, including industry consolidation, and increased competition from alternative sources of risk management products, such as the capital markets;
- risks relating to our controlling shareholder's ability to determine the outcome of our corporate actions requiring board or shareholder approval;
- risks relating to our ability to raise additional capital if it is required;
- risks related to covenants in our debt agreements;
- our inability to access our subsidiaries' cash;
- loss of services of any of our key employees;
- risks related to our use of reinsurance brokers;
- changes in economic conditions, including interest rate, currency, equity and credit conditions which could affect our investment portfolio;
- failure of our reinsurers to honor their obligations to us;
- risks associated with the growth of our specialty insurance business and the development of our infrastructure to support this growth;
- operational and financial risks relating to our utilization of program managers, third-party administrators, and other vendors to support our specialty insurance operations;
- the passage of federal or state legislation subjecting our business to additional supervision or regulation, including additional tax regulation, in the United States or other jurisdictions in which we operate;
- risks related to our computer and data processing systems; and
- acts of war, terrorism or political unrest.

The words "believe," "anticipate," "project," "expect," "intend," "will likely result," "will seek to" or "will continue" and similar expressions identify forward-looking statements. We caution readers not to place undue reliance on these forward-looking statements, which speak only as of their dates. Additional information regarding these factors and others that could cause our actual results to differ materially from our expectations is included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 28, 2008. The

## Table of Contents

information appearing under “Risk Factors” in such Annual Report on Form 10–K is incorporated by reference into and made a part of this Form 10–Q. Except as otherwise required by federal securities laws, we undertake no obligation to publicly update or revise any forward–looking statements, whether as a result of new information, future events or otherwise.

### PART I — Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

#### Market Sensitive Instruments

The term “market risk” refers to the risk of loss arising from adverse changes in prices. We believe that we are principally exposed to four types of market risk related to our investment operations. These risks are interest rate risk, credit risk, equity price risk and foreign currency risk. Market sensitive instruments discussed in this section principally relate to our fixed income securities and common stocks carried at fair value which are classified as available for sale. As of March 31, 2008, our total investments and cash of \$8.1 billion includes \$4.3 billion of fixed income securities that are subject primarily to interest rate risk and credit risk.

#### *Interest Rate Risk*

The table below displays the potential impact of fair value fluctuations on our fixed income securities portfolio as of March 31, 2008 and December 31, 2007, based on parallel 200 basis point shifts in interest rates up and down in 100 basis point increments. This analysis was performed on each security individually.

Percent Change in Interest Rates	As of March 31, 2008			As of December 31, 2007		
	Fair Value of Fixed Income	Hypothetical	Hypothetical	Fair Value of Fixed Income	Hypothetical	Hypothetical
	Portfolio	\$ Change	% Change	Portfolio	\$ Change	% Change
	(In millions)					
200 basis point rise	\$ 3,646.4	\$ (619.9)	(14.5)%	\$ 4,127.1	\$ (518.3)	(11.2)%
100 basis point rise	3,932.5	(333.8)	(7.8)	4,367.4	(278.0)	(6.0)
Base scenario	4,266.3	—	—	4,645.4	—	—
100 basis point decline	4,658.7	392.4	9.2	4,969.1	323.7	7.0
200 basis point decline	5,108.7	842.4	19.7	5,335.9	690.5	14.9

The preceding table indicates an asymmetric fair value response to equivalent basis point shifts, up and down, in interest rates. This partly reflects exposure to fixed income securities containing a put feature. In total, securities with a put feature represent 4% of the fair value of the total fixed income portfolio as of both March 31, 2008 and December 31, 2007. The asymmetric fair value response reflects our ability to put these bonds back to the issuer for early maturity in a rising interest rate environment (thereby limiting fair value loss) but to hold these bonds to their much longer full maturity dates in a falling interest rate environment (thereby maximizing the full benefit of higher fair values in that environment).

As of March 31, 2008, we had net unrealized gains of \$90.2 million, before taxes, related to our total investments and cash. This net amount was comprised of gross unrealized appreciation of \$178.3 million, offset by gross unrealized depreciation of \$88.1 million, which includes gross unrealized appreciation of \$152.7 million and gross unrealized depreciation of \$87.1 million related to fixed income securities and common stocks carried at fair value.

#### *Disclosure About Limitations of Interest Rate Sensitivity Analysis*

Computations of the prospective effects of hypothetical interest rate changes are based on numerous assumptions, including the maintenance of the existing level and composition of fixed income security assets, and should not be relied on as indicative of future results.

Certain shortcomings are inherent in the method of analysis used in the computation of the fair value of fixed rate instruments. Actual values may differ from those projections presented should market conditions vary from assumptions used in the calculation of the fair value of individual securities, including non–parallel shifts in the term structure of interest rates and a change in individual issuer credit spreads.

## [Table of Contents](#)

### *Credit Risk*

We have exposure to credit risk, primarily as a holder of fixed income securities. We control this exposure by emphasizing investment grade ratings in the fixed income securities we purchase. We also have exposure to credit risk associated with the collection of current and future amounts owing from our reinsurers. We control this exposure by emphasizing reinsurers with financial strength.

As of March 31, 2008 and December 31, 2007, 95.7% and 96.1%, respectively, of the aggregate fair value of our fixed income securities consisted of securities rated investment grade, with 4.3% and 3.9%, respectively, rated below investment grade.

We have purchased credit default swaps, referenced to various issuers in the banking, mortgage and insurance sectors of the financial services industry, that provide a hedge against adverse movements in the fair value of investments and other corporate assets resulting from systemic financial and credit risk. Under a credit default swap, we agree to pay at specified periods fixed premium amounts based on an agreed notional principal amount in exchange for the credit default protection on a specified asset. Credit default swaps are recorded at fair value in other invested assets, with the related changes in fair value recognized as a realized gain or loss in the period in which they occur. We assess the reasonableness of the fair values of the credit default swaps by comparison to models validated by qualified personnel, by reference to movements in credit spreads and by comparing the fair values to recent transaction prices for similar credit default swaps where available. The total cost of the credit default swaps was \$70.7 million and \$94.2 million as of March 31, 2008 and December 31, 2007, respectively, and the fair value was \$239.2 million and \$307.6 million, as of March 31, 2008 and December 31, 2007, respectively. The notional amount of the credit default swaps was \$4.1 billion and \$5.0 billion as of March 31, 2008 and December 31, 2007, respectively. The credit default swaps had net realized gains of \$167.4 million and \$12.4 million for the three months ended March 31, 2008 and 2007, respectively. For the April 1 to April 25, 2008 period, the net realized investment loss related to our credit default swaps was \$72.3 million. The fair value of the \$4.1 billion notional amount of credit default swaps that we held as of April 25, 2008 was \$166.9 million. The fair values of credit default swaps are subject to significant volatility given potential differences in the perceived risk of default of the underlying issuers, movements in credit spreads and the length of time to the contracts' maturities. The fair value of the credit default swaps may vary dramatically either up or down in short periods, and their ultimate value may therefore only be known upon their disposition. As a result of the appreciation in the fair value of the credit default swaps, counterparties to these transactions are required to place government securities as collateral, pursuant to the swap agreements. The fair value of this collateral at March 31, 2008 was \$178.4 million, of which we do not have the right to sell or repledge \$100.1 million. We have not exercised our right to sell or repledge the remaining \$78.3 million of this collateral.

As of March 31, 2008, our holdings of financial instruments without quoted prices, or "non-traded investments," included a collateral loan, which was fully impaired during 2005. We periodically evaluate the carrying value of non-traded investments by reviewing the borrowers' current financial positions and the timeliness of their interest and principal payments.

### *Equity Price Risk*

We have investments in total return swaps, as an economic hedge against a general decline in our equity portfolio. The total return swaps had aggregate notional amounts of \$691.0 million as of both March 31, 2008 and December 31, 2007. The margin maintenance requirement related to the total return swaps was \$203.5 million and \$205.7 million as of March 31, 2008 and December 31, 2007, respectively. The swap transactions terminate during the second quarter of 2008. As of March 31, 2008 and December 31, 2007, we have provided \$220.0 million and \$210.9 million, respectively, of U.S. Treasury securities as collateral for the swap transactions. The swap transactions are recorded at their fair value of \$65.0 million and \$3.8 million as of March 31, 2008 and December 31, 2007, respectively, in other invested assets and changes in the fair value are recorded as realized gains or losses in the consolidated statement of operations in the period in which they occur. For the three months ended March 31, 2008 and 2007, the swap transactions had net realized gains of \$69.7 million and \$2.1 million, respectively.

In connection with the swap transactions, we own SPDRs and XLF index call options at a cost of \$0.8 million and \$1.0 million, with a strike price of approximately 127.5% and 127.8% of the notional amount of the swap transactions as of March 31, 2008 and December 31, 2007, respectively. A call option gives the purchaser the right,

## Table of Contents

but not the obligation, to purchase an underlying security at a specific price or prices at or for a certain time. Our maximum potential loss on the swap and option transactions was \$190.9 and \$193.2 million as of March 31, 2008 and December 31, 2007, respectively. We plan to continue to purchase short-dated call options in 2008 in an effort to reduce the maximum potential loss on the swaps to approximately 20% of the swap notional value. The call options are recorded at fair value in other invested assets, and changes in the fair value are recorded as a realized gain or loss in the consolidated statement of operations. For the three months ended March 31, 2008 and 2007, the call options had net realized losses of \$0.2 million and \$6.9 million, respectively.

We also entered into and subsequently closed a total return swap referenced to an equity security during the first quarter of 2008. Upon sale, we recognized a realized investment gain of \$5.3 million.

In addition, as of March 31, 2008 and December 31, 2007, we had short positions of \$51.2 million and \$62.3 million, respectively, of primarily equity securities, for which we recorded a liability equal to the underlying fair value of the securities of \$39.2 million and \$60.7 million, respectively. Net realized gains of \$17.6 million and \$7.6 million for the three months ended March 31, 2008 and 2007, respectively, were recognized in our consolidated statements of operations. As of March 31, 2008 and December 31, 2007, we provided cash of \$59.6 million and \$195.8 million, respectively, as collateral for the borrowed securities.

In connection with the short sales described above, we purchased a SPDR call option as protection at a cost of \$0.1 million. The call option is recorded at fair value in other invested assets in the consolidated balance sheet, and changes in the fair value are recorded as a realized gain or loss in the consolidated statements of operations in the period in which they occur. For the three months ended March 31, 2008 and 2007, the call option had net realized losses of \$0.1 million and \$0.7 million, respectively.

As of March 31, 2008 and December 31, 2007, 13.1% and 13.4%, respectively, of our total investments and cash was in common stocks (unaffiliated and affiliated). Marketable equity securities, which represented 11.4% and 11.6% as of March 31, 2008 and December 31, 2007, respectively, of our total investments and cash, are exposed to equity price risk, defined as the potential for loss in fair value owing to a decline in equity prices. A 10% decline in the price of each of these marketable equity securities would result in a decline of \$92.8 million and \$90.3 million as of March 31, 2008 and December 30, 2007, respectively, in the fair value of our total investments and cash.

### ***Foreign Currency Risk***

Through investment in securities denominated in foreign currencies, we are exposed to foreign (i.e., non-U.S.) currency risk. Foreign currency exchange risk exists because changes in the exchange rates of the underlying foreign currencies in which our investments are denominated affect the fair values of these investments when they are converted to the U.S. dollar. As of March 31, 2008 and December 31, 2007, our total exposure to foreign-denominated securities in U.S. dollar terms was approximately \$2.3 billion and \$2.1 billion, respectively, or 28.2% and 26.8%, respectively, of our total investments and cash. The primary foreign currency exposures were from securities denominated in the Euro, which represented 11.2% and 9.5% of our total investments and cash as of March 31, 2008 and December 31, 2007, respectively, the British pound, which represented 9.3% and 9.2% of our total investments and cash as of March 31, 2008 and December 31, 2007, respectively, and the Canadian dollar, which represented 4.3% and 4.2%, of our total investments and cash as of March 31, 2008 and December 31, 2007, respectively. As of March 31, 2008, the potential impact of a 10% decline in each of the foreign exchange rates on the valuation of investment assets denominated in those respective foreign currencies would result in a \$228.4 million decline in the fair value of our total investments and cash, before taxes.

Through our international operations, we conduct our business in a variety of foreign (non-U.S.) currencies, with the primary exposures being the Euro, the British pound, and Canadian dollar. Assets and liabilities denominated in foreign currencies are exposed to changes in currency exchange rates to the extent that they do not offset each other resulting in a natural hedge. Our reporting currency is the U.S. dollar, and exchange rate fluctuations relative to the U.S. dollar may materially impact our results and financial condition. We manage this risk on a macro basis by entering into forward currency contracts. As of March 31, 2008 and December 31, 2007, we were party to forward currency contracts with notional amounts of \$247.4 million and \$149.2 million, respectively. As of March 31, 2008 and December 31, 2007, the fair value of these contracts is reported in other invested assets

## Table of Contents

and other liabilities at \$1.8 million and \$2.8 million, respectively. Forward currency contracts had net realized gains of \$4.6 million for the three months ended March 31, 2008.

### Investment Impairment Risk

We review our investment portfolio on a quarterly basis for declines in value, and specifically consider securities, the fair value of which have declined to less than 80% of their amortized cost at the time of review. Temporary declines in investments will be recorded as unrealized depreciation in accumulated other comprehensive income. If we determine that a decline is “other–than–temporary,” the carrying value of the investment will be written down to the fair value and a realized loss will be recorded in our consolidated statements of operations.

In assessing the value of our debt and equity securities held as investments and possible impairments of such securities, we review (i) the issuer’s current financial position and disclosures related thereto, (ii) general and specific market and industry developments, (iii) the timely payment by the issuer of its principal, interest and other obligations, (iv) the outlook and expected financial performance of the issuer, (v) current and historical valuation parameters for the issuer and similar companies, (vi) relevant forecasts, analyses and recommendations by research analysts, rating agencies and investment advisors, and (vii) other information we may consider relevant. In addition, we consider our intent and ability to hold the security to recovery when evaluating possible impairments.

Based on our review, we recognized other–than–temporary impairment losses in the amount of \$40.9 million before taxes, which were recognized in our consolidated statement of operations as a reduction to our net realized gains for the three months ended March 31, 2008.

The following tables reflect the fair value and gross unrealized depreciation of our fixed income securities and common stock investments, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, as of March 31, 2008 and December 31, 2007 (in millions):

	Duration of Unrealized Loss								
	Less than 12 Months			Greater than 12 Months			Total		
	Fair	Gross	Number	Fair	Gross	Number	Fair	Gross	Number
Value	Unrealized	of	Value	Unrealized	of	Value	Unrealized	of	
March 31, 2008	Value	Depreciation	Securities	Value	Depreciation	Securities	Value	Depreciation	Securities
Fixed income securities investment grade:									
United States government, government agencies and authorities	\$ 361.2	\$ (1.7)	1	\$ 456.6	\$ (6.4)	4	\$ 817.8	\$ (8.1)	5
States, municipalities and political subdivisions	21.8	(0.3)	2	29.1	(0.4)	5	50.9	(0.7)	7

Total temporarily impaired securities	\$ 854.5	\$ (79.9)	34	\$ 522.1	\$ (8.0)	12	\$ 1,376.6	\$ (87.9)	46

	Duration of Unrealized Loss								
	Less than 12 Months			Greater than 12 Months			Total		
	Fair	Gross	Number	Fair	Gross	Number	Fair	Gross	Number
December 31, 2007	Value	Unrealized	of	Value	Unrealized	of	Value	Unrealized	of
December 31, 2007	Value	Depreciation	Securities	Value	Depreciation	Securities	Value	Depreciation	Securities
Fixed income securities investment grade:									
United States government, government agencies and authorities	\$ —	\$ —	—	\$ 950.9	\$ (28.9)	7	\$ 950.9	\$ (28.9)	7
States, municipalities and political subdivisions	9.7	(0.1)	3	20.8	(0.2)	3	30.5	(0.3)	6
Foreign governments	535.2	(7.3)	7	160.6	(2.8)	8	695.8	(10.1)	15
Corporate	—	—	—	0.5	—	1	0.5	—	1
Total investment grade	544.9	(7.4)	10	1,132.8	(31.9)	19	1,677.7	(39.3)	29
Fixed income securities non–investment grade, corporate	26.7	(3.1)	6	—	—	—	26.7	(3.1)	6
Total fixed income securities	571.6	(10.5)	16	1,132.8	(31.9)	19	1,704.4	(42.4)	35
Preferred stocks, at fair value	0.5	(0.9)	1	—	—	—	0.5	(0.9)	1

Common stocks, at fair value	289.9	(27.1)	7	—	—	—	289.9	(27.1)	7
Total temporarily impaired securities	\$ 862.0	\$ (38.5)	24	\$ 1,132.8	\$ (31.9)	19	\$ 1,994.8	\$ (70.4)	43

## [Table of Contents](#)

We believe the gross unrealized depreciation is temporary in nature and we have not recorded a realized investment loss related to these securities. Given the size of our investment portfolio and capital position, we have the ability and intent to hold these securities until the fair value recovers the gross unrealized depreciation.

### **PART I — Item 4.     *Controls and Procedures***

- (a) Evaluation of disclosure controls and procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a–15(e) and 15d–15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, such officers have concluded that our disclosure controls and procedures are effective as of the end of such period.
- (b) Changes in internal controls over financial reporting. There have been no changes during the period covered by this Quarterly Report in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II — OTHER INFORMATION

### PART II — Item 1. *Legal Proceedings*

On September 7, 2005, we announced that we had been advised by Fairfax that it had received a subpoena from the Securities and Exchange Commission (“SEC”) requesting documents regarding any non-traditional insurance and reinsurance transactions entered into or offered by Fairfax and any of its affiliates, which included OdysseyRe. The United States Attorney’s Office for the Southern District of New York is reviewing documents provided to the SEC in response to the subpoena, and is participating in the investigation into these matters. In addition, we provided information and made a presentation to the SEC and the U.S. Attorney’s office relating to the restatement of our financial results announced by us on February 9, 2006 and responded to questions with respect to transactions that were part of the restatement. Fairfax, and Fairfax’s chairman and chief executive officer, V. Prem Watsa, who is also the chairman of OdysseyRe, have received subpoenas from the SEC in connection with the answer to a question on Fairfax’s February 10, 2006 investor conference call concerning the review of Fairfax’s finite contracts. Our independent registered public accountants and our chief financial officer prior to March 2005 have each received a subpoena relating to the above matters. This inquiry is ongoing, and we are cooperating fully in addressing our obligations under this subpoena. At the present time, we cannot predict the outcome of these matters, or the ultimate effect on our consolidated financial statements, which effect could be material and adverse. No assurance can be made that we will not be subject to further requests or other regulatory proceedings of a similar kind.

On February 8, 2007, we were added as a co-defendant in an existing action against our majority shareholder, Fairfax, and certain of Fairfax’s officers and directors, who include certain of our current and former directors. The amended and consolidated complaint has been filed in the United States District Court for the Southern District of New York by the lead plaintiffs, who seek to represent a class of all purchasers and acquirers of securities of Fairfax between May 21, 2003 and March 22, 2006, inclusive, and allege, among other things, that the defendants violated U.S. federal securities laws by making material misstatements or failing to disclose certain material information. The amended complaint seeks, among other things, certification of the putative class, unspecified compensatory damages, unspecified injunctive relief, reasonable costs and attorneys’ fees and other relief. Motions to dismiss this suit have been filed, briefed and argued by Fairfax and by us. It is uncertain when the judge will rule on these motions. We intend to vigorously defend against the allegations. At this early stage of the proceedings, it is not possible to make any determination regarding the likely outcome of this matter.

In July 2006, Fairfax, our majority shareholder, filed a lawsuit in the Superior Court, Morris County, New Jersey, seeking damages from a number of defendants who, the complaint alleges, participated in a stock market manipulation scheme involving Fairfax shares. In January 2008, certain of these defendants filed a counterclaim and third party complaint against Fairfax, naming certain third party defendants, including OdysseyRe and certain of our directors. This complaint alleged, among other things, tortious interference with economic advantage and other torts, and seeks unspecified compensatory and punitive damages and other relief. On February 7, 2008, the judge in this matter dismissed Fairfax’s complaint with respect to these two defendants, but permitted Fairfax to file an amended complaint on or prior to March 27, 2008. The defendants withdrew their counterclaim on March 5, 2008. Fairfax filed an amended complaint with respect to these two defendants on March 27, 2008. It is uncertain when the judge will take further action in this matter. OdysseyRe denies the allegations and intends to vigorously defend against this complaint.

We and our subsidiaries are involved from time to time in ordinary litigation and arbitration proceedings as part of our business operations; in management’s opinion, the outcome of these suits, individually or collectively, is not likely to result in judgments that would be material to our financial condition or results of operations.

## [Table of Contents](#)

### **PART II — Item 1A. Risk Factors**

There have been no material changes to the risk factors as previously disclosed in our 2007 Annual Report on Form 10-K filed with the SEC on February 28, 2008.

### **PART II — Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

#### ***Issuer Purchases of Equity Securities***

The Odyssey Re Holdings Corp. share repurchase program was publicly announced on June 15, 2007. The program became effective as of such date and will expire on June 15, 2009. Under the program, we were initially authorized to repurchase up to \$200.0 million of our common shares from time to time, in the open market. Shares purchased under the program are retired. On March 18, 2008, we announced that our Board of Directors increased our share repurchase authorization by \$200.0 million, to a total of \$400.0 million.

From inception of the program through May 5, 2008, we have repurchased and retired 5,825,489 shares of our common stock at a total cost of \$212.0 million, of which 1,074,000 shares were purchased from April 1, 2008 through May 5, 2008, at a cost of \$40.0 million.

We also make open market repurchases of our common shares, from time to time as necessary, to support the grant of restricted shares and the exercise of stock options. Our stock incentive plans allow for the issuance of grants and exercises through newly issued shares, treasury stock, or a combination thereof. 278,200 shares were purchased during the three months ended March 31, 2008 to support such grants and exercises, and as of March 31, 2008, we held 231,980 common shares in treasury to support such grants and exercises. The following table sets forth purchases made by us of our common shares during the three months ended March 31, 2008.

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid Per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Program</b>	<b>Maximum Dollar Value of Shares that may yet be Purchased Under the Program</b>
				<b>(In thousands)</b>
January 1 — January 31, 2008	487,000	\$ 36.79	358,900	\$ 92,333
February 1 — February 28, 2008	327,900	37.15	259,400	82,724
March 1 — March 31, 2008	1,577,800	36.59	1,496,200	228,039
Total	2,392,700	\$ 36.70	2,114,500

**CERTIFICATION PURSUANT TO SECTION 302 OF  
THE SARBANES–OXLEY ACT OF 2002**

I, Andrew A. Barnard, certify that:

1. I have reviewed this quarterly report on Form 10–Q of the registrant, Odyssey Re Holdings Corp.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a–15(e) and 15d–15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a–15(f) and 15d–15(f)) for the registrant and we have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
  - (d) disclosed in this quarterly report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.

**CERTIFICATION PURSUANT TO SECTION 302 OF  
THE SARBANES–OXLEY ACT OF 2002**

I, R. Scott Donovan, certify that:

1. I have reviewed this quarterly report on Form 10–Q of the registrant, Odyssey Re Holdings Corp.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a–15(e) and 15d–15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a–15(f) and 15d–15(f)) for the registrant and we have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
  - (d) disclosed in this quarterly report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
